DEPENDABLE
SEEDS
SEASON of 1930

GREENWOOD, SOUTH CAROLINA

All of Park's seeds are 5 cts. a Packet, and all are Guaranteed.

THE BEAUTIFUL CYCLAMEN PERSICUM GIGANTEUM

One of the most beautiful and showy of winter-blooming window plants is *Cyclamen Persicum* and I take pleasure in offering new-crop seeds of the finest known strain of the new Giant varieties. This strain was developed by a French firm of florists, and the seeds I offer were grown in the south of France and imported this season. Practically every seed will produce a plant, the foliage as exquisitely marked as a Coleus, and producing a wealth of huge gracefully-formed flowers, as represented in the engraving. The texture is unsurpassed, and the colors and variegations are rich, rare and varied. Those who know only the older varieties of *Cyclamen Persicum* will be surprised and delighted at the superior beauty of this new strain. I have no doubt that you will be able to grow these plants from seeds should not fail to get one or more packets, and also tell their friends of this rare bargain. I am really offering the seeds at cost. See page 29. For seeds of other fine house plants see pages 28, 29, 30 and 31.

GEO. W. PARK, Prop'r., Greenwood, South Carolina

PANSIES, PYRETHRUMS. Dear Mr. Park: I raised 24 lovely Swiss Giant Krany plants from the 25 seeds planted last year. They are all very fine. I have also raised 60 more from the 25 seeds you sent me. I am sorry I didn't want them that time! Also, my double Pyrethrums are coming up well. I will send you some when they are ready. Yours truly,
Mrs. L. F. Sutton, Wabasha Co., Minn.

WINDOW PLANTS. Dear Mr. Park: I have used your seeds for many years and like them here. At present my windows are full of beautiful plants raised from your seeds; Coleus, Gloxinias, Primroses and Cinerarias. Mrs. E. M. Clapsaddle, Osego Co., N. Y., March 18, 1929.

IMPROVED KINGS. I appreciate the seeds you have so many improved sorts. Mrs. Fletcher, Wapella Ia.

AQUILEGIA PAULS. Mr. Frank J. McFalls, 1921, near every place is full of them. The Audubons and I go from one to the other. E. L. Wallace, Kootenai Co., Ida, March 8, 1929.

PRIMROSES. Dear Mr. Park, We have lovely primroses now blooming from seeds bought of you two years ago. Ida J. Brinkman, Adams Co., March 6, 1929.

A Live Pardon. Dear Mr. Park, I began to buy seeds of you 55 years ago, and am glad to be able to continue dealing with you. Mrs. Anna Corwell, Highland Co., Ohio, April 25, 1929.

INDEX and GERMINATION TABLE

WHEN sowing divide the packages and sow at different times. Note the time, and give good care until the plants have had time to appear. Figures here indicate pages, and letters indicate as per key the time needed for germination. Do not condemn seeds until you have given them at least two or three trials. Those marked z will often be dormant for four years, then come up thick in the row. Most of the seeds we offer, however, will germinate promptly, and bloom the same season in which they are sown.

Time of germination varies considerably, according to conditions. If the soil is too dry the seeds will not start; if too wet they will often rot, especially if the temperature is warm. Some seeds, especially of shrubs and trees, will lie in the ground for one, two or more years before germinating. Adonia, Dictamnus, and English Marigold, will often be dormant for four years, then come up thick in the row. Most of the seeds we offer, however, will germinate promptly, and bloom the same season in which they are sown.

As a rule, give c and the sound of k. G is generally hard, as in get. Such words as Zinnia and Glia, ending in ia are pronounced Zin'-ne-a, Gil'-e-a not Zin'-ya or Gil'-ya. Correct pronunciation sometimes varies as, for instance, Glia di'o lus, and Glad i'o lus.

The Glorious Climbing Marigold.—Elsewhere I offer and describe the Grand New Climbing Marigold. I had grown this splendid novelty for several years, but never had enough seeds to justify listing it. Last year I offered it for the first time and it created a sensation. Everybody wanted seeds and my stock was exhausted at mid-season. This year I hope to supply all, but would advise early orders. Plants will grow 15 ft. high and become a mass of big full-double richly-colored blooms. Be sure to get it. Pack of 15 seeds only. Sets. Tell your friends,

This Flower Book should be read and preserved by everyone who loves and cultivates flowers. It not only describes and offers the largest collection of flowers in the United States, but gives the height of the plants, the color of the flowers, brief hints on culture, and indicates the syllabication and pronunciation of the flower names. String it and hang it in a convenient place. You will want to refer to it almost every day. Your friends will appreciate it. Free copies sent to any of your friends who are interested in flowers.

A FEW INTRODUCTORY REMARKS

MY DEAR FRIENDS: It is a joy for me to greet you, one and all, once more, at the threshold of a new year. It is so because of the increased patronage accorded me the past season, and the very delightful and encouraging letters that often accompanied your orders. It is a joy, too, because this greeting affords me a means of extending my hand, radio-like, over space, and with a genial hand-clasp express to you my heart-felt thanks for your many valued favors. Some of you have solicited and included the orders of neighbors and friends with your own, and some have contributed addresses of prospective customers. I need hardly assure you that I value all the evidences of your friendship and appreciation, and with renewed zeal and energy I will try to merit the good will and confidence thus shown.

My friends, 61 years have come and gone since I issued my first Catalogue, an eight-page pamphlet with engravings of Victoria Aster and Pansy. That was while a youth at the old homestead where I raised and prepared all my own seeds and did my own advertising. This was before telephones, phonographs, bicycles, autos, radios and flying machines were known. By untiring energy, perseverance and an enthusiastic love for the work, however, it became abundantly successful. My motto, adopted in boyhood, has always been, "Big sales and small profits", so I have never profiteered, and have always felt that I would rather please my patrons than to have their money. I supply only the BEST in Quality and Vitality. I hold that it would be just as honorable to sell shoe-pegs for seeds as to sell seeds that are old and devoid of life. So if I find any seeds sold lack vitality I will gladly replace them. See my guarantee statement with every seed-package.

This Flower Book is different from other Lists. It is unassuming and issued for real information to flower lovers in selecting the choicest flowers for their various needs. I do not care to boost the sale of flowers under "home-made" names, using over-drawn descriptions and gaudy colored pictures to demand fancy prices. I have but one price, 1 packet 5 cts. 22 packets \$1.00, 50 packets \$2.00. You can get any seeds offered in this Catalogue for 5 cents. I shall appreciate the efforts of my friends in soliciting orders from others in the community. If possible get some neighbors to club with you and get a \$2.00 order. You will thus get 10 extra packets, which will justify your efforts. Additional Catalogues will be sent to any neighbor or friend who would be interested in getting first-class seeds at 5 cts. a packet. And when ordering why not give the names and addresses of a few friends who are in the habit of buying seeds.

Keep this Catalogue for reference. Hang it on a nail in a convenient place. You will be surprised how often you will want to use it. Here are some of its good points: First, It offers very many things you cannot get from other seedsmen. Second, Seeds are offered under these heads: A. those that bloom the first season; B. those that bloom the second season. C. those that grow and bloom in pots, summer and winter. Third, The time of germination of the seeds, the height of the plants and the pronunciation of the names are all given. These you will often have occasion to refer to.

Please Note: It will pay you to read this entire Catalogue over carefully once or twice, then string it and hang up where you can find it when wanted. It offers and briefly describes the largest collection of seeds in the United States, and at prices that are available to all who love and cultivate flowers. It teems with information that is found in no other Catalogue. It is humble in appearance, but what it lacks in gaudy colored plates is made up in the quality of the seeds offered and the price at which they are sold.

Terms of Sale. Price 1 packet 5 cts. 22 pkts. \$1.00, 50 pkts. \$2.00, by mail, post-paid, guaranteed to reach you. If lost in transit I will refill the order. If mistakes are made I will gladly correct them. If seeds fail I will replace them. (See terms in Cultural hints sent with seeds.) I aim to treat you just as though you were personally present, and I am always ready to do more than justice and fair dealing demand. I want your continued patronage and I hope you will tell your friends and neighbors of my prompt and faithful service, and thus help me to enlarge my trade in your community. Why not get up a club? If you order \$2.00 worth you will get my seeds at 4 cts a packet. Can anyone ask for more? Catalogues mailed free. Please give names of those who habitually buy seeds.

Briza maxima. Among the pretty Ornamental Grasses listed on page 18 is Briza, a plant of which is shown in the little illustration. It is an annual with pretty foliage and lovely drooping spikes that are beautiful in autumn, whether in a garden bed, or made up into a bouquet. If cut and hung up or carefully dried in the shade the sprays are fine for room decoration in winter. In the South the seeds can be sown in autumn, and the plants

Plant of Briza Maxima

will form strong clumps that will bloom freely in early summer. At the North they should be sown in spring. Briza gracilis is also handsome. The Brizas are known as Quaking Grass because the Fairy-like sprays dance and quake when touched by the slightest breeze.

Oriental Poppies. I ask special attention to my very superior Oriental Perennial Poppies, offered on page 26. I have all the new shades and colors, including apricot, pink, salmon, crimson, scarlet, red and orange, ranging to white, the rarest of all. Turn to page 26 and see what I offer. You will be more than pleased with the glorious flowers grown from the unrivalled strains of these Poppies.

Obeliscaria. On page 14 I offer a very rare and beautiful annual under the name of Obeliscaria. The plant grows a foot high, and bears large, showy flowers at the summit of the branches. The flowers consist of a tall thick, protruding chocolate center, from the base of which the petals droop, each petal a rich red broadly margined with gold. Be sure to add this easily-grown annual to your list.

Petunias. There are no better seeds of Petunias than those I offer at 5 cents a packet. Kelway's Perfect Model Single-flowered and Kelway's Perfect Model Double are the best to be obtained in England. Our Superbissima or ruffled Giant Petunias, both single and double, were grown by Ernst Benary of Germany, whose products are unequaled in the world. When in Europe I visited all the big seed establishments, but I saw no Petunias, single or double, that approached those grown by Benary in size, form and rich coloring. They were a revelation to me, and the charming sight of those flowers has lingered pleasantly in my memory ever since. On this account the bulk of my fine Petunia seeds this year came direct from Mr. Benary's gardens, and you can absolutely depend upon superior results from them. See page 15.

Double Petunia

The Climbing Marigold. I am anxious that my friends should try the new Climbing Marigold described and offered on p.40. If you try it you will have a novelty of rare merit, one that will make your neighbors stop and take notice. The seeds start readily and the plants quickly come into free bloom and keep up the display until Jack Frost makes his appearance in late autumn. It will bloom in any rich sunny spot, but do not fail to give it good tall support early, and if you wish a real vigorous growth water occasionally with liquid fertilizer. Now who will send in the most attractive report of their success with this splendid novelty? For the best report I will reward the grower with one of my New Mammoth-flowered Dahlias, the kind that grows upward of a foot across. Will you get that big Dahlia?

The Best VEGETABLES for General Use

Artichoke, French Green Globe, perennial; edible heads. 5c.
Asparagus, Mary Washington, new rust-proof, best of all. 5c.
Bean, Early Mazagan English Bean, upright, Lima flavor. 5c.

Bountiful Bean

Bean, Bountiful. Earliest, best snap bean, bears nearly all season. Entirely stringless. Better than Stringless Green Pod. Finest flavored, most tender, surpassingly productive. Pkt. 5cts. 1-2 lb. 20 cts., 1 lb. 35 cts.
 Improved Golden wax, best, most productive wax bean. Pkt. 5 cts., 1-2 lb. 20 cts., 1 lb. 35 cts.
Kentucky Wonder, best, most popular climber; green pods 8 in. long, stringless when young, clustered, very productive. Pkt. 5cts. 1-2 lb. 20 cts., 1 lb. 35c.
Striped Creaseback, flowers rich red; pods 9 in. long, green, round, full, productive; best corn-field. 5c. 1-2 lb. 20c. 1 lb. 35c.
Lima bean, Fordhook Bush, 18 in., most grown of Limas; fine flavored, very productive. 5cts. 1-2 lb. 20cts. 1 lb. 35cts.
Carpenteria, best vine Lima; finest quality, productive. 5cts.

Kelwaii White, like the preceding but white flowers.

Nobilis, 13in. spreading, white; for beds and for cutting.

Tinctoria, Golden Marguerite, 2ft. fine for beds and cutting.

ASTERS, Parks' Superb Double

THE DOUBLE ASTERS are very beautiful annuals for beds, borders and pots. The seeds germinate quickly and the plants thrive in any rich sunny border, and bloom abundantly throughout the autumn months, each flower lasting many days. In beds or borders, the plants make a gorgeous display, and if potted when in bud or bloom, they are admirable for room decoration. They are also popular as cutflowers and well deserve their popularity.

To get the best results, these points should be observed: Get choice seeds of the finest strains; transplant from the seed box early, giving each plant ample room for development; see that the bed is in a sunny place and that the soil is rich, porous and well-drained. To produce specimen flowers, remove the small surplus buds and apply liquid fertilizer occasionally as the buds develop. Grown in pots, the plants are profitable for marketing.

We offer seeds of the finest quality, saved by specialists, and they will yield the best results. Be sure to try them.

Tall Double Asters, 2 to 3 ft.

ASTER, New Development, the finest of all Double Asters, developed by Kelways of England, during many years of careful hybridizing and selection. Plants grow two feet high, bearing on long stems huge full-double flowers 5 or more inches across, the florets twisted giving a close resemblance to a fine large Japanese Chrysanthemum. This new aster is wonderfully effective in beds, and charming for room decoration when cut. Our seeds are direct from Kelways, and cannot be excelled.

Pride of the West , pure white.	King of the West , lovely purple.
Glory of the West , rich crimson.	Beauty of the West , shell pink.
Delight of the West , fine rose.	Maid of the West , lavender pink.
Grace of the West , pale lavender.	Queen of the West , azure blue.

Superb mixture of all varieties of New Development Asters, 5c.

Victoria Giant, bears enormous flowers of great fullness, the flat florets charmingly imbricated; one of the most showy and massive of Asters. We offer only the improved large-flowered Victoria, glorious in beds and fine for cutting. Colors: White, White tinted Rose, Peach Blossom, Crimson, Fiery Scarlet, Light Blue, Dark Blue, Purplish Violet; separate or in fine special mixture, 5 cts.

American Branching.

A superb class of late branching Asters, gorgeous in beds, being very floriferous, and unsurpassed for cutting, having very large double flowers on long stems. Colors: White, Crimson, Light Blue, Dark Blue, Rose, Scarlet, Shell Pink; also Azure Fairy, lovely large azure blue on long stems; Cardinal, fine brilliant scarlet; and Heart of France, new, rich ruby red. Separate or in fine special mixture.

Cocardeau or Crown, a very beautiful class, large, double, each flower showing a distinct white center. Colors: Rose, Dark Crimson, Light Blue, Deep Lilac, Dark Blue; separate or mixed.

Unicum, long, narrow, curled petals; very large, fine double. **Bell's White**, new, globular, snow-white fine petalled, large and very beautiful; good to cut. This is the latest-flowering of all.

Globe Quilled, Kelway's 'Verger Model', the finest strain of Quilled Aster. There is nothing in existence approaching it. The flowers are all perfectly semi-globular and up to exhibition standard. Certified by Royal Horticultural Society; Prize and Gold Medal Paris Exposition. Our seeds are direct from Kelway. Mixed only.

Kelway's New Decoration Aster grows 3 ft. high, and the enormous double, rich-colored flowers are held on stems 2 ft. long; mixed.

Kelway's New Giant grows plants tall bearing super-giant flowers of the most attractive colors; finest mixed.

French Giant Single Aster, vigorous and very floriferous; plant with large and fine long-stemmed single flowers which, when cut, keep for a long time. White, Amaranth, Violet, Rose; sep. or mixed.

SEMI-DWARF ASTERS, 18 in.

Extra Early Hohenzollern, large, feathery fls; early, good; mixed.

Colors: White, Bright Rose, Fiery Scarlet, Pink, Light Blue, Dark Blue, Crimson, Yellow, Lilac, tinted white, Crimson and White; sep. or mixed. Unexcelled as a bedder.

Plant of the gorgeous New Development Aster

Paeony-flowered Perfection, an incurved Aster, very large and full; one of the most beautiful for either beds or cut flowers. Colors: White, Red white edge, Old Rose, Deep Blue, Light Blue, Deep Purple, Bishop's Violet, Amaranth, Rose, Snow White, Rose and white; sep. or mixed; also **New Sunlight Yellow**.

Comet Giant, superb class, the petals twisted giving the big double flowers a fluffy globular form; splendid for beds and fine for cutting. Colors: Pure White, Rose, Azure Blue, Dark Blue, Light Blue, Cinnabar Red, Crimson, Scarlet, Canary, Salmon-rose, White tinted rose, White tinted lilac, Flesh, Pink; separate or mixed; also **Triumph of Paris**, white with large yellow center.

Ostrich Plume, a very floriferous aster. The flowers large and plumy with long petals, and produced on long stems; showy in beds and excellent to cut. Colors: Improved White, Crimson, Rose, Light Blue, Lilac, Cinnabar, Salmon-pink, Dark Scarlet, White changing to rose; separate or mixed.

New Mammoth Aster, seeds direct from German Specialists. We highly recommend this New German Aster, and believe it will afford amazing results to those who grow it. Our seeds will not only grow, but will yield among the largest, most double and most beautiful flowers of the Aster family. By all means, add this glorious aster to your list. Colors: Sulphur Yellow, Light Blue, Dark Blue, Carmine, Peach Blossom, Bright Rose, Rosy Lilac, Salmon-rose, Rose, Crimson, White and Rose, Flesh; sep. or mixt.

Note. Here is the description from the German specialists who grow our seeds: "This is considered the grandest Aster ever introduced. Plant tall-growing, branching, and bearing flowers of mammoth size, measuring up to eight inches across, densely double, fine curled and feathery highly resembling a big Japanese Chrysanthemum, and which may be cut with stems nearly or quite two feet long, unequal as a cut flower for exhibition, and very effective in beds or groups." From this description it is seen that this aster is not worthy of a trial? It is to 70 seeds in a packet, enough to yield plants for a fine bed, only 5 cts.

Kelway Giant Branching Aster, seeds direct from Kelway of England. 30 in. high, bearing full-double flowers five inches across; magnificent and a decided acquisition. **Snowstorm**, pure white; **Splendens**, charming pink; **Sensation**, light lilac. **Superb**, pleasing purple; **Sparkle**, rich crimson; separate or all in splendid special mixture.

Giant Credo, full double, huge, rich colors, fluffy petals; mixed.

GOLIATH, huge Comet fls; largest and finest exhibition aster.

Eclipse, new English aster; fls curled and crested, fine double; mixed.

ANEMONE, St. Bridgit, Kelway's superb very beautiful

Langport Strain; large fls, semi-double, rich colors, mixed.

★ **ARCTOTIS breviscapa**, 6 in. a splendid plant for beds.

Grandis, African Lilac Daisy, 2 ft. white and lilac.

Both kinds in fine mixture, 5 cts.

ARGEMONE, Double White, 2 ft. new, large-fl'wd, beautiful

Grandiflora, fine new hybrids, superb mixed colors.

Platyceras, 3 ft. prickly fls large, poppy-like, handsome.

ARNEBIA cornuta, 2 ft. pretty golden fls spotted brown.

ARTEMISIA annua, 5 ft. lovely fragrant foliage; fine.

★ **ASCLEPIAS curassavica**, 2 ft. lovely scarlet and gold clusters; beautiful and truly everblooming; adapted for beds or pots. One of the good things. This plant is easily grown.

ASPERULA azurea setosa, 1 ft. charming annual, blooming freely and continuously; fls azure blue, fragrant, showy on the plants and excellent for bouquet-making.

ASTER, Perennial, 3 ft. fine large-fl'wd, mixed. See page 23.

ATRIplex cupreata, 3 ft. red with dark violet stalks

BALSAM, Double, Finest Improved

Complete Special Mixture

THE BALSAM is very desirable as a garden annual. The seeds are sure to grow and the plants bloom freely throughout the summer and winter. They like a rich deep soil and prefer partial shade though they will do well in a sunny exposure. Although splendid as garden flowers, if started in summer and grown in pots they are grand for winter blooming in the plant-window or conservatory. The flowers are surpassingly beautiful, but of large, of waxy texture, show fine range of charming colors and variegations and are abundantly and continuously produced until cut down by frost. If you grow but a half dozen annuals one of them should be the Improved Double Balsams. We offer the best quality of seeds of the best varieties and are confident they will give unbounded pleasure and satisfaction. Our mixtures are specially prepared and contain all the colors in fine proportion. Try our fine Balsams.

★ Park's Prize Camellia-flowered

Special Mixture of Camellia-flowered Balsams.

The finest of all Balsams, full double not unlike the unrivalled Camellia in form and texture and substance and appear in a great diversity of exquisite colors. Our seeds of these cannot be excelled. You can depend upon them for best results. We offer the following colors: Crimson, Alba Perfecta white, Prince Bismarck brilliant salmon rose, Pure Scarlet, Rose spottal, Scarlet spotted, Violet spot-

Balsams in full bloom

Goliath chamois-rose, Lilac, White shaded pink, Red, Rosy-lilac, separate or in splendid mixture 5 cts.

Double Rose-flowered, Atrosanguinea, 2 ft. deep blood red; also splendid mixture of all colors. Camellia-flowered Balsam large flowered, extra double, growing over two feet high, and free and long blooming. Give them a trial.

Carnation-striped, 2ft. double, in fine mixture.

Dwarf Miniature, 18in. semi-double in very fine mixture.

Dwarf French Balsam, double, 1ft. White, Fiery Red, Fiery Red Striped, Rose, Bishop's Violet Spotted, sep. or mixed.

These are semi-double, rich in color and especially valuable for blooming in pots in the window, summer or winter. Our seeds are direct from the growers in France.

Mette's New Royal Balsams

These are advertised by Mr. Mette of Germany as very

large flowered, extra double, growing over two feet high, and free and long blooming. Give them a trial.

The Princess, pure white; very double; a splendid Balsam.

The Prince, yellow; very showy and beautiful.

Complete Mixture of all the above Royal Balsams, 5 cts.

We highly recommend our Balsams; they will delight you.

BARTONIA aurea, 1ft. silvery foliage, rich gold cups filled with a mass of gold stamens; a beautiful plant.

BELLIS, Giant English Daisy. Fine for winter beds south and summer beds north. 6in. good for edgings; free blooming and the flowers are large, very double, bright and showy. A mixed bed of Daisies and Pansies is beautiful. Try the arrangement. We offer only the improved Giant variety as follows:

Bellis Monstrosa Double Daisy

Monstrosa, Giant-flowered Double White, Rose, Red, Snowflake, Quilted Scarlet, separate or in splendid mixture.

Tubulosa, a new race containing dark blood red, carmine, light yellow and delicate pink; mixed colors only.

Ranunculus flowered, broad petals turned inward, fls full double, white, not showing a vacant center; beautiful.

Our complete carefully prepared special mixture of Bellis, 5c.

BEE, Chilean, 18in. ornamental, ribs scarlet, rose, gold mixt. Scarlet is especially fine for retired beds.

BIDENS dahlioides, 1ft. Dahlia like, large, showy mixed.

BORECOLE, striped, curled, coleus like, mixed; winter beds.

Palm-tree, 6ft. Palm like, also fine for winter beds.

BOLTONIA glastifolia, 4ft. pinkish daisies, blooms Sept.

Latisquama, 2ft. plants branch; bear violet daisies freely.

BRACHYCOME, Swan River Daisy, 6in. charming free-blooming annuals, flowers small, asterlike, very pretty, fine for edgings and beds; Blue, White, Rose; sep. or mixed.

Browallia elata is a hardy annual of easy culture. The plants branch, become bushy and are covered with the bright flowers that are always admired. Grown in pots they are fine for winter-blooming. They thrive and bloom in sun or shade and are very desirable plants.

Elata grandiflora, 18in. Blue, also White, sep. or mixed.

Roetzli, 18in. large flowers, azure blue, very handsome.

Speciosa major, fls. like a small Petunia; violet blue, also white; a fine pot plant for the conservatory.

Note. Browallia-elata will self-sow in a mild climate and will keep a display of its pretty flowers from volunteer plants after once established. Do not omit this fine annual.

CALLIOPSIS in Splendid Variety

Complete Special Mixture of all splendid varieties, 5 cts.

OLD, beautiful and popular hardy annuals that well deserve a place in every garden. These flowers are beautiful. The plants are slender, branch freely and each branch is tipped with a graceful, rich-colored flower, so that a mass of plants makes a very attractive and pleasing display. The flowers are also fine for cutting for bouquets and designs. Sow the seeds either in fall or spring. The dwarf sorts are fine for beds and borders.

 Sweet Sultan (Moschata) 3ft., white, blue, rose, yellow or mx'd.
 All the above in complete special mixture.

CELOSIA in Showy Varieties

Easily grown, showy and beautiful annuals for beds.
 Tall Coxcomb, 18in., huge broad combs. Colors: scarlet, crimson, yellow, rose, variegated, Peony red; separate or mixed.
 Dwarf, 1ft., plants with big showy combs, fine for beds; crimson (Pres. Thiers), scarlet (Glasgow Prize), orange, rose, purple, blood-red, cardinal, golden yellow; separate or mixed.
 Magnifica, 2ft., branching, each branch tipped with a big showy plume; crimson, scarlet and golden yellow.

Splendid for beds, lasting, beautiful, attractive, sep. or mx'd.
 Childsii, Woolflower, big tufts of wool, charming colors mixed.

Celosias for Beds. For a bright and continuous display there are few annuals that surpass the Dwarf Celosias or Coxcomb named Pres. Thiers. The plants grow only 6 or 8in. high, showing a wealth of pretty green foliage at the base, begin to bloom early and are attractive until cut down by frost. Use Sweet Alyssum or Imperial white Ageratum for a border. Celosia Magnifica is equally desirable for beds; the branching plants become masses of crimson and gold.

CHRYSANTHEMUM, Annual

The varieties separate, each 5cts., Complete Mixture 6cts.

FOR either out-door or window culture we recommend these beautiful, showy, everblooming annuals. They are of the easiest culture, bloom early and continually, and are so free that the plants become a mass of glorious bloom. We offer choice seeds of the finest kinds as follows:

Coronarum, 3ft., large, well formed double flowers. Colors: Pure White, Golden Yellow, Sulphur, Separate or mixed. Splendid for beds, groups, or cutting. Also Dwarf Compact, golden yellow, 15in. best for beds. Separate or mixed 5cts.

Carinatum, 2ft., Dunnetti Dbl. White, Yellow, Dark Copper, Purple. Separate or mixed 5c. **Single Eclipse**, yellow and brown; Golden Feather yellow foliage; **hadiatum**, wheel-like, mixed, and single mixed including all the choice varieties 5cts.

Segetum, North Star white with black center, Morning Star primrose, Evening Star, golden yellow, sep. or mixed. Annual Chrysanthemum in Complete Special Mixture 6c.

Fringed Annual Chrysanthemums. We have pleasure in offering seeds of this new race, which is distinct and beautiful. The large, double, fringed flowers in many fine colors make a fine display in beds throughout summer and autumn and are excellent for cutting. They are the loveliest of hardy annuals, and a child can grow them. Why not add this to your order? Mixed, 6c. **Chrysanthemum Inodorum**, 1ft., foliage fine-cut, dense, and a fine background for the large full-double white flowers so abundantly borne all season. We offer the improved "Frisal Rebe", blooms of which on long stems are so prized for cutting. Showy in the garden, fine in pots. 5cts.

CHRYSANTHEMUM Coronarium Dwarf

Earliest Large-flowered, 4ft, coming into bloom early. Colors: White, Crimson, Purple, Rose, mx Grandiflora, fl. pl. new double, 3ft, early blooming, the flowers large, crested and of the beautiful colors, White, Pink, Crimson, mixed. Klondyke, 3 to 6 ft, bearing masses of rich golden yellow bloom; fine for a hedge; good for cutting.

Crambe cordifolia, 6ft. flowers white, panicked; showy.

Crepis, 1ft, pretty annuals for garden beds; of easy culture, White, Pink, Yellow, Mixed, Flowers "double"; attractive.

★ DIDISCUS—The Blue Lace Flower. This truly lovely annual growing 18in. high, has become noted for its beauty in beds, and especially for bouquets and designs. The small exquisite blue flowers come in lace-like umbels, not unlike those of carrot; charming on the plant, and lasting for a week or more when cut. Its rare beauty, daintiness and grace, together with its lasting quality and adaptability have caused a sensation among florists who grow and use cut flowers. A New York florist says "As a lasting flower it has no rival. I have had flowers on my desk lasting from eight to ten days; even the buds unfold, and its buds are the most beautiful of any I have ever seen." Plants started in early spring begin to bloom in summer and continue until frost. Set plants 12 inches apart, and to promote branching nip the top off when nine inches high. Each branch will bear a lovely cluster of the exquisite lace-like flowers. Only 5 cents a packet.

Crotalaria Juncea, 7ft, long spikes of golden flowers; showy. **Retusa**, 2ft, big spikes of yellow and brown flowers.

Note—These lovely, showy annuals like sun, and endure drought that would destroy many flowers. Sow in beds and thin ten inches apart.

Cryptostemma calendulaceum, 2ft, yellow, clustered at tip of branches; large, Marigold-like.

Cuphea miniata, 2ft. deep scarlet; **Purpurea**, 1ft. purplish crimson; **Silenoides**, 18in. crimson-brown; **Zimapani**, 2ft large blackish purple flowers. Separate 5cts., all mixed 5cts.

Cynoglossum coelestinum, 2ft. sky blue, very handsome **Linifolium**, 1ft. branching; charming white blooms. profuse.

DAHLIA, Choice Single and Double.

Dahlias are among the most beautiful of garden flowers, and of the easiest culture. Seedlings are as readily raised as Zinnias, and begin to bloom almost as early.

The flowers are often quite as beautiful as the named Dahlias; sometimes new and superior.

CHOICE DOUBLE DAHLIAS

Kelways Double Show and Fancy, Gold Medal strain, saved from Kelways fine named collection, fine mixture 5cts.

Note. This is the finest known strain of Double Dahlia. Our seeds were saved by the Kelways and imported this season. They cannot be surpassed.

Single Cactus Dahlia, a specialty with Kelway. Best seeds, finest mxd. Collarette, superbly crested, finest mixed. Various charming colors. Lollipop Double, direct from Kelways; best seeds, mixed colors.

FINEST SINGLE DAHLIAS

Grandiflora Giant, large flowers, measuring up to 8in. across; beautiful; finest mixed colors. Fine for single specimens, showy.

Colossal, immense blooms, 8 inches across; new, splendid variety.

Striped and Spotted, exquisitely marked; mixed colors.

Tom Thumb, 1 foot, finest mixed colors, pretty and neat.

Miniature, the Baby Dahlia, mixed, very handsome and interesting.

Large Double Mixed, Large Single Mixed, Complete mixture 5cts.

Datura, handsome easily-grown garden "Angels Trumpets." **Ceratocaula**, 3ft, white and pink, sweet.

Composita, 3ft, Horn of Plenty, lilac.

Fastuosa, **Huberiana**, fl. pl. mixed.

Chlorantha fl. pl. 2ft, golden, showy.

Wrightii, 2feet, huge lilac trumpets.

Complete Mixture of all varieties, 5cts.

★ Golden Queen, a very beautiful Datura, 2ft, high, bearing throughout summer large, beautiful, flowers as showy as a Paeony. Plants are easily grown from seeds, bear hot sun and drought, and form a charming bed or border. A flower for everybody; 5cts.

DIASCIA **Barberae**, a lovely new annual 9in. covered with coral pink bloom.

Delphinium, splendid hardy perennials blooming freely the first season, and lasting for years. Easily grown.

Cardiophyllum, 1ft, violet, fine.

Nidus, 2ft, fine, scarlet.

Chinese Large-flowered, 3ft, mxd.

Chinese Tom Thumb 1ft, indigo blue very floriferous, fine for beds.

Pumilum, 18in, White Butterfly

Blue Butterfly, navy blue, fine.

Azure Fairy, soft azure, new.

Butterfly mixed, all colors.

Complete Mixture of all the above

Gaura Lindheimerii, 3ft, white, floriferous

Godetia

Separately or in Complete Mixture, 5 cts

AMONG the beautiful annuals that are popular in Europe the Godetia in many splendid varieties has a very prominent place. In beds they appear like immense sheets of exquisite color and variegation. The plants mostly grow a foot high, and are just smothered with the glorious masses of bloom. They start readily from seeds. Sow early in rows six inches apart, and thin out. We offer choice English-grown seeds of the finest single and double varieties. They will be a revelation to any unacquainted with them.

★Azaleiflora.--This grand new double Godetia is thus described by its introducer: "Azaleiflora is one of the most striking novelties we ever had the privilege of introducing. It is an absolutely Hardy Annual, as striking as a rare greenhouse plant. The flowers are rose, with a carmine blotch on each petal, and cover the plant. The plants (15in.) are of splendid bushy habit, and look exactly like a greenhouse Azalea. Highly as we prized this flower at first we think still more highly of it now. It is a flower for every garden". 5 cts.

Fine Single Godetias

★Brilliant, (see eng.) 1 ft. sm othered with large rich vivid crimson flowers with white center; very effective in beds, and fine for bouquets; the brightest and best of single-flowered Godetias. 5 cts. Aurora, new, dwarf; soft rose; charming. Gloriosa, dwarf; large, darkest blood-red.

IMPATIENS, Holsti and Sultani
These are everblooming plants, useful for partially shaded beds, and unsurpassed for pots in the window. The flowers are graceful, of various rich colors, and always attractive. Other kinds are likewise desirable. **Holsti**, 2 feet high, branching; continually covered with bloom; all colors from white to carmine. Mixture 5 cents.

KAULFUSSIA Amelloides

A dwarf hardy annual, 6in. high; daisy-like flowers, white, violet, crimson, good for beds or edges; mxd.

Kochia Chidisi, an improved summer Cypress; turns to glowing red in autumn. 3ft; Burning Bush.

Lallemantia canescens, blue, for bees
Lasthenia californica, 1ft, rich yellow

LARKSPUR, Annual

Very beautiful annuals. Easily grown. Sow in spring or Fall where plants are to bloom.

LARKSPUR, Stock-flowered

Dwarf Hyacinth-flowered, 1ft, Double: White, Rose, Buff, Azure, Blue, Violet, Red, sep. or mix
 Giant Hyacinth-flowered, 3 feet, Double: White, Rose, Red, Indigo, Violet, Reddish Gray, sep. or mxd.
 Dwarf Candelabrum, 1ft, fine mxd.
Layia Elegans, 1ft, an early free-flowering annual; flowers Aster-like, yellow with white margin; fine for beds. See Engraving.

Leptosyne Stillmanni, 18in. early, free-blooming, the flowers daisy-like, golden yellow; also **L. Maritima** 2 feet, large-flowered golden Marguerite. Both kinds are showy in beds and fine for cutting.

The Beautiful LAVATERA

KAULFUSSIA PLANT

In beds they make a brilliant display, surpassing description. The tall sorts are fine for cutting; the Hyacinth-flowered are not unlike blooming Hyacinths, come in many splendid colors, and are glorious. Don't omit annual Larkspurs from your order.

Stock-flowered, 3 feet, Double: White, White striped blue, Bright Rose, Lilac, Azure, Violet, Tricolor, Dark Blue, Carmine, Rosy Scarlet. Separate or mixed, very choice.

Emperor, 2ft, Double, splendid. colors mixed; extra choice.

LAYIA Elegans, pretty annual

Lavatera rosea splendens, annual, 3ft. Hollyhock-like, fine. Alba, very fine white, improved. ★ **Sunset**, splendid for beds or borders; new. These Lavateras are hardy annuals of great beauty for showy beds, as also for cutting, the flowers lasting well in vases. They deserve a place in every garden.

L. Olbia, 5ft, hardy shrub with long sprays of rose pink flowers; does well for borders, also for pots in the window.

Limnanthes Douglassi, 6in. yellow and white, sweet, for beds

LINUM, Ornamental Flax
Very showy in beds, 1ft, flowers brilliant scarlet-crimson, easily grown, beautiful **L. Usitatissimum**, 2ft, blue, fine; **L. Lewesi** blue, handsome. Separate or Mixed.

LINARIA, Annual, 1ft., very beautiful summer flowers of easy culture; very showy in beds
Aparinoides, spikes of golden flowers, showy; **LINUM, Flax**
Bipartita alba, white; also deep Violet; **Excelsior** Hybrids, in splendid mixture; **Reticulata aurea purpurea**, golden yellow and dark purple, separate or mixed. These are all lovely. **Bipartita** plants in bloom look like giant **Lobelias**. The **Excelsior** Hybrids show violet, pink, red, blue and golden hues and are charming. You should surely have these.

LINARIA, Perennial.- These embrace **L. Cymbalaria** or **Kenilworth Ivy**, the drooping kind, unequalled for a basket bracket or pot, and for carpeting. We also have the **Compact** **White**, beautiful as an edging or for pots; and **Globosa** which forms dense globular plants 6 inches high, smothered with bloom. These new hardy kinds we heartily recommend. They do well in sun or dense shade, bloom freely and continually, and are sure to please. Another fine hardy **Linaria** is **Macedonica speciosa**. It also blooms the first season, growing 3ft. high, and producing long spikes of golden flowers. Fine in beds, and good for cutting. You will not regret it if all these lovely **Linarias** are added to your order. Don't forget them.

LUPINUS

We offer these splendid Lupines:
Albo Coccineus, 2ft, red, white.
Cruikshanksi, 4ft, dark blue.
Hirsutus, 3ft, blue, white, red, mix

Lutea, a pretty Brazilian annual; flowers yellow, clustered.
Tricolor, rose with dark spots; useful for groups and borders
Proboscidea, white, yellow and violet; showy, easily grown; pods called Devil's Claws, used for pickling when green.
 Mixture of all the varieties. 5cts.
Mesembrianthemum, Ice Plant.
Pomeridianum, 1ft, yellow, fine
Tricolor, 6in, three-colored, fine

Mesembrianthemum Tricolor

Marigold, Fine Varieties

Complete Special Mixture of all kinds, 5 cts.

MARIGOLDS are general favorites, as they grow well in any soil or climate, are showy, free and continuous-blooming, fragrant, and beautiful. We offer the finest African and French varieties, and our seeds are of the best quality. *Signata pumila* is a grand edging, a foot high, and shows a mass of rich golden bloom. *Lucida* a native of Mexico, is exquisitely scented, rare, and very handsome.

Blooming Plant of Double French Marigold
Gold Star, striped; separate or mixed. Double French Lollipop, small, fine, mixed. Complete mixture, single and dble. 5c

Note. Our African Marigolds are of a Prize Strain, and very superior. They bloom freely and continuously, and are very showy in beds or borders. No enemy troubles the Marigold, and the plants thrive in the hottest sunshine, and will endure a drouth that will destroy many of our annuals. Both French and African Marigolds are "Indispensable".

Complete Special Mixture of Marigolds, French and African, Single and Double, Tall and Dwarf, best quality, 5cts. 4

Matricaria alba plenissima, (Feverfew) 2ft, extra double, pure white, free-blooming, beautiful. *Capensis* fl. pl. white, double. *Eximia* fl. pl. double, white, large-flowered, quilled; Golden Ball, 1ft, golden yellow, double, quilled, profuse, fine for beds. Silver Ball, 1ft, white, double, quilled, profuse; fine *Matthiola bicornis*, 1ft, sweet scented Evening Stock; lilac. *Mimosa pudica*, 2ft, Sensitive Plant; rose, fine pot plant. Spagazzini, Tree Sensitive Plant; fine for pots in the window.

Mirabilis, Marvel of Peru, Four-o'clock, Tall, 2ft, Carmine, Crimson, Chamois, Red and White, Lilac, Yellow, White, Yellow and Red; separate or mixed.

Mirabilis, Tall, Variegated-leaved, Carmine, Crimson, Rosy carmine, Tricolor, White, White with red, Yellow, Yellow with red, sep. or mxd.

Mirabilis, Tom Thumb, 1ft, Carmine, Dark crimson, Tricolor, White White with red, Yellow with red; separate or mixed.

Mirabilis Longiflora, 2ft, White, Violet, separate or mixed. Note. The Four-O'clocks are lovely, showy, easily-grown flowers, and are favorites with children, the flowers being attractive, and the plants readily started from the large seeds.

Molucella laevis, Shell Flower, 2ft, white, peculiar calyx. *MIGNONETTE*, 1ft, flowers small, freely produced in long spikes, and deliciously scented. Fine for garden beds.

Grandiflora, very sweet, oz 25c Improved, similar to above.

★ *Bismark*, robust, red spikes, compact growth; extra fine *Machet rubra*, glossy scarlet White Pearl, finest white. Golden Yellow, finest yellow

Pansy

Complete Mixture, 5 cents.

EVERYONE who cultivates flowers should have a bed of our Giant Pansies. They are among the "indispensables," being of the easiest culture, very free-blooming, and exceedingly showy and beautiful. Our seeds are of the best strain known, and will compare with any seeds offered by others at five times our price, 5 cts a packet.

Our plants are dense, robust and become a glorious mass of bloom, while the flowers are of mammoth size, exquisitely formed, and show a wonderful range of colors and variegations. We specially recommend our mixture, but can supply separately.

Pansy, Special Strains.

Cassiois Blotched, rich spots.
Bugnots Extra-large, mixed.
Kelways Choicest Strain, mix.
Masterpiece Exhibition, mix.
Mette's Triumph of Giants.
Benary's Non-plus-ultra, mix.
Giant French, richly stained.
Striped Mammoth Parisian.

Giant Winter-blooming Pansies. These Pansies are earlier and harder than the older kinds, and will bloom throughout the winter when not too severe. The flowers are very large, of fine form, fragrant, and come in all the leading colors and variegations. Our seeds are of an improved strain, and very superior. We offer North Pole, pure white Mars, corn-flower blue; Helios, pure golden yellow; Woden, almost black; Celestial Queen, white with blue eye; Winter Sun golden yellow with eye; Jove, purple and white; Charm of March, blue. Separately or in Complete Mixture, 5 cents.

★New Spencer Pansies. This new race of Pansies has very large flowers that are frilled and fringed and crimped, making them appear as though almost double. The rich colors with the velvety texture and exquisite and quaint form give these Pansies a beauty that is exclusive and greatly prized. Fine for beds and window boxes, 5 cts.

POPPIES, Bright and Showy as Paeonies.

Complete Special Mixture of all classes and colors, carefully proportioned, only 5 cents.

Poppies are old fashioned flowers, but how showy and beautiful they are! Once in the garden they mostly take care of themselves. The large double ones are as handsome as Paeonies, and quite as showy and pleasing, while the single flowers show a wonderful diversity of shades and variegations, and are always admired. In garden beds and borders they are truly gorgeous, and a few seeds scattered about the vegetable beds make bright and beautiful the vegetable garden without detriment to the growing plants. Poppies should adorn every home, and it pays to use only the improved kinds we offer.

Splendid Paeony-flowered Poppies, Broad-petaled. The Paeony-flow'd Poppies grow eighteen inches high, and are not unlike Paeonies in form and general appearance. They are exceedingly attractive, of easy growth, and very satisfactory. Colors: White, Brilliant Rose, Salmon Pink, Cochineal Red, Cardinal Red, Striped, Deep Purple, and Pansy Violet, each, 5 cents. The same in fine mixture, 5 cents.

Double-flowered Fringed, large, showy, flowers, the petals deeply fringed. Colors: White; White striped; Salmon-rose; Pink; Red on white; Scarlet striped; separate or mix.

Fine Single Poppies.

Lavigatum, deep rich scarlet.

● **★New Sunbeam Poppies.** Here is a new race of glorious Poppies. Plants are perennial, grow 18 in. high, and bear on strong stems large showy fragrant flowers from May until October. Colors range from white to crimson, and from sulphur to glowing orange-scarlet. These new Poppies have a great future, for once introduced everybody will want them. Splendid for cutting. Award of Merit by Royal Horticultural Society. You will be delighted with these Poppies, mxd 5c

★ **New Yellow Cardinal Poppies,** very double, light canary yellow in color; 2ft, very attractive in beds, 5 cts

★ **Shirley,** Our Shirley Poppies are of the latest improved strain, and surpass all others; none better; only 5c

PETUNIA

Kelway's Giant

Complete Special Mixture, 5 cents.

WE consider this the finest strain of large-flowered Petunias in cultivation. The Kelways of England were years in developing it to its present unequalled quality. The seeds were saved from hybridized flowers of select pot plants, and cannot be surpassed. They will produce strong, shapely plants covered throughout the season with flowers of mammoth size, exhibiting a grand array of the most pleasing and rare colors and markings. Fine for beds, pots and vases. You will not err in getting seeds of this splendid strain. Our seeds are direct from Kelway.

Kelways Perfect Model, very large, beautifully striped, blotched, spotted.

Kelways Fringed, exquisitely crenulated, fringed, fine colors; splendid.

Kelways Royal Blue, true velvety blue; free-blooming; superb for beds.

★ New Giant Perfection, We are much pleased to offer a new large-flowered Phlox Drummondii that surpasses all others. The plants grow 9 in. high, branch freely, and are smothered with huge clusters of big showy flowers, very rich and varied colors, and making a marvelous display in a bed or in pots. We have Pure White; White marbled blue; Yellow; Blue, white eye; Azure with white center; Dazzling Red; Fiery Scarlet; Rose; Scarlet with big white center. Separate or mixed, 5 cents.

PHLOX Drummondii

Complete Special Mixture of all varieties, 5 cents

PHLOX Drummondii is a native annual of Texas that has been greatly improved by cultivation. The plants grow a foot high, and now bear much larger and finer flowers than originally, while they come in a wonderful variety of shades from white to bluish purple and crimson, as well as in striking variegations. They bloom throughout the summer, and are exceedingly showy in beds and borders. We cannot too highly recommend them. The seeds offered are of the finest strains, and will please all who sow them. Grandiflora kinds are especially useful for continuous bloom in summer beds.

PENTSTEMON, For Beds New Gloxinia-flowered, Mixed, 5cts.

THIS elegant new bedding plant grows two feet high, each plant branching and bearing a mass of rich bloom, the flowers tubular, as shown in the engraving. They keep in bloom throughout the autumn. The plants are popular for bedding in Europe. Our seeds are of the large-flowered rich-colored class and although perennial the plants bloom freely the first season. Being hardy they will endure the winter and bloom freely the following season. You will like this Giant Pentstemon for beds. Mixed 5cts.

PENTSTEMON

PARSLEY, New Crested Gem, the most lovely plant known for table decoration and for garnishing; of dwarf compact habit, does well in pots; foliage fine-cut, dense, and prettier than the finest fern. Hardy, easily-grown, beautiful. 5cts.
PERILLA Laciniatus, 2 ft. showy purple, fringed foliage; beds.
PHACELIA Campanularia, 6 in. broad bell-flower, deep blue.
Congesta, 2 ft. blue, good in masses. Sow in bed and thin.
Grandiflora, 5 ft. large-flowered, dark blue, rare, handsome.
Parryi, 6 in. deep violet, flowers an inch across, beautiful.
Tanacetifolia, 2 ft. bluish pink, pretty; fine bee plant.
Complete Special Mixture of all Phacelias, 5 cents.

Note:-- Phacelias are lovely annuals, and deserve a place in every collection. *P. Campanularia* has pretty blue bells in abundance. *P. Grandiflora* has flowers over an inch across and is tall and showy.

PHYSALIS Franchetti, Japan Lantern; wreaths of showy red "balloons," dried for winter; of striking effect, 5 cents.
Edulis, Cape Gooseberry, 2 ft. fine edible fruits; excellent.
Alkekengi, 2 ft. fine scarlet-red fruits, showy everlasting.

POLYGONUM Orientale, 6 ft., lovely "tails" of bloom. Carmine-red; also Variegated-leaved, separate or mixed, 5 cents.

PORTULACA

Very showy and beautiful low succulent hardy annuals that like sunshine. Plants should stand six inches apart. The flowers are abundant, opening in the morning and closing at noon. The rich colors and delicate texture of the flowers give them an attraction that few flowers have. The double-flowered sorts are more lasting than

The Beautiful Double Portulaca the single, and appear like little roses; the plants, however, do not all bear double flowers, even from the best seeds. Our seeds of Double Portulaca are of a choice strain, and most of them will produce double-flowering plants.

Double Portulaca, large-flowered, Alba, white. Aurea, Orange. Aurea striata, yellow striped orange. Caryophylloides rose with carmine stripes. Rosea, rose. Salmona, salmon. Splendens, purple. Separate or mixed, 5cts.

Single Parana, very large-flowered, reddish purple, new. Single, large-flowered, in splendid mixture, 5 cents.

PRETHRUM parth. laciniatum Perfection, 6 in. compact.

Aureum, 1 ft. golden foliage, fine for beds and borders.

Golden Gem, 1 ft. golden foliage, double, white flowers.

Excelsior, 6 in. deep golden, splendid in bed or border.

Complete Special Mixture of all above sorts, 5 cents.

Queen Anne's THIMBLE

Here is a beautiful Gilia with little thimble-shaped flowers in clusters held above the fine feathery foliage, giving a most pleasing and striking effect. When cut, the long-stemmed exquisite heavily blue clusters are lovely in bouquets and last well in water. Sow in Spring or Fall. It will prove a delightful surprise, 5 cts.

Queen Anne's Thimble Flower

RICINUS, Castor Bean, Improved.

THESE are tall branching plants clothed with large, tropical leaves, often tinted rose or crimson. They are showy and elegant in groups, and always attractive. In mild climates they are perennial, and will grow twenty ft. high. The Zanzibar Ricinus grows more dense and has larger foliage than the older kinds. All are handsome, and give a semi-tropical appearance to the grounds. Very easily grown.

Ricinus, Castor-oil Bean

Borbonensis arboreus, 15 ft, green foliage, very ornamental.
Panormitanis, 7 ft. giant brown leaves, blue stems, attractive.
Sanguineus, 7 ft. red leaves and stems. One of the best.
Laciniatus, 5 ft. dark foliage, finely lacinated; new, rare.
Gibsoni, 5 ft. bronze foliage and fruits; fine for a big hedge.
Zanzibariensis, 7 ft. robust, very large lobed leaves, mostly green; showy seeds. Cinerascens, Enormis, Maculatus, Niger, all fine varieties of the Zanzibar Ricinus we can supply separately or in complete mixture, 5 cents.

PODOLEPIS Chrysantha, 1 ft. a beautiful annual for a sunny bed; flowers golden yellow with pink; fine for pots. We also supply *P. Affinis*, a pretty annual. Both are easily grown.

RANUNCULUS Asiaticus Superbissimus, 1 ft. exquisite large, double flowers in many rich colors; finest mixture.

RICOTIA lunaria, 9 in, pretty annual; likes sandy soil.

ROSA Nana Polyantha, the Baby Rose, 1 ft. Seedlings begin to bloom in four or five months. Lovely double and single flowers. Fine for pots. A beautiful novelty.

RUBBECKIA Superba, 2 ft, semi-double, rich golden yellow.

Newmannii, 2 ft, vivid yellow, long-blooming, gorgeous.

Purpurea Hybrida, 4 ft, rich red, varied, long-blooming.

SALPIGLOSSIS

Complete Mixture 5cts.

The new Giant Gloxinia-flowered Salpiglossis is an exceedingly handsome class of annuals. Plants grow 2 ft. high, bearing abundantly and continuously large, showy richly-colored flowers, exquisite in texture, many strikingly throated or penciled. In a bed they are surpassingly beautiful, and enthusiastically admired; easily started and easily transplanted.

These choice varieties,

separate or mixed, 5cts.

Aurea, pure golden yellow.

Brilliant Crimson, very rich.

Brown and Golden Yellow, fine

Chamois, tan, veined scarlet.

Deep Scarlet, yellow throat.

Faust, fine velvety black.

The above superb large-flowered Salpiglossis, sep. or mxd 5c

The New Dwarf Salpiglossis, 1 ft. splendid, in fine mixture, 5c

SANVITALIA Procumbens, fl. pl. a creeping annual, producing an abundance of double, bright golden yellow flowers throughout the summer. Showy and beautiful.

Salpiglossis New Gloxinia-flowered

Azure, light-blue, veined gold

Lilac, veined golden yellow.

Purplish Brown, pencilled.

Purplish Violet, fine color.

Rose, with fine purple veins.

Violet, veined golden yellow.

SALVIA, Best Kinds

Complete Special Mixture 5 cents.

THE Salvias are showy and beautiful either in beds or pots. The plants grow from one to three feet high, bloom all the season, and will endure drought and sunshine. They start readily from seeds and soon come into bloom. *Salvia splendens* is unsurpassed for showy beds.

Argentæa, 4ft. silvery foliage. *Patens*, 3ft. navy blue, splendid.
Carduacea, 2ft. blue, very showy. *Ringens*, 2ft. large purple bloom.
Coccinea, 3ft. fiery scarlet, fine. *Roemeriana*, 18in. rich scarlet.
Farinacea, 3ft. bright-light blue. *Sclarea*, 5ft. white woolly foliage.
Globosa 4ft. white, gray foliage. *Turkestanica*, 5ft. bright pink.
Horminum, 2ft. red, white, blue, mx'd. These Species, sep. or mixed 5c.

SALVIA SPLENDENS, the Showy Bedding Salvia

Bonfire, 16in. glowing scarlet, fine. *Glory of Stuttgart*, 18in. scarlet.
Fireball, 1ft. scarlet, very free. *Semperflorens*, 1ft. intense red.
Gigantea, 3ft. very attractive as single specimens, and for a tall border. *Zurich*, 1ft., bright red, profuse.
Complete Mixture of *splendens* 5c.

Note.—I know of no more showy nor satisfactory bedding plant than *Salvia*. Seedlings of *Fireball*, the new, best of *Salvias*, grow a foot high, begin to bloom early, and become a mass of big flaming spikes of bloom, lasting for months. *Glory of Stuttgart* grows 18 inches high, and should be used for the center of the bed. The two make a gorgeous display of glowing scarlet flowers that lasts throughout the season. One packet of *Stuttgart* and two of *Fireball* will produce plants enough for an attractive bed. Sow in a box of good soil and when large enough, set the plants eight inches apart in the bed. The three packets, only 15 cts.

SALVIA SPLENDENS, the best of all Bedding Plants.

SAPONARIA Multiflora, trailing and free-blooming showy annuals. Sow in Fall or Spring. White, Red, Mixed.

Scarlet Queen, 1ft. very brilliant and beautiful.

★ *Ocymoides Splendens*, a glorious trailing perennial, showing a carpet of lovely pink clusters in spring; fine.

Officinalis fl. pl. 2ft. large heads of soft pink flowers; a tenacious and handsome perennial. Fine for embankments.

★ *Vaccaria Alba*, 2ft. exquisite white flowers; charming.

★ *Rosea*, 2ft. lovely pink in fine large panicles.

Note. *Saponaria Vaccaria* is very desirable for the cut-flower market, or for designs. The flowers are small, but produced in graceful clusters, and are not unlike *Gypsophila* in general appearance, except that the flowers are larger. They are more lasting than *Gypsophila*, and more easily grown. No flower-grower should be without this splendid annual. It should be a "must have" in every flower garden.

SCHIZANTHUS

Here is a splendid annual, the plants growing a foot high, branching freely, and almost smothered with rich delicate orchid-like bloom, the markings being white, rose, gold, crimson and violet. The plants do equally well in beds or pots, and are always in bloom. The new large-flowered hybrids are especially recommended. They are charming.

★ **Large-flowered**, White, Brilliant Crimson and Violet. Sep. or Mixed.

The Charming Schizanthus
Dwarf Hybrids, in finest mixture. *Pinnatus roseus*, fine rose.
Reticus Rosamond, fine rose. *Trimaclulatus*, *Albus*, *Lilacinus*.
Wisconsinensis Excelsior, best for pots; 1ft., choice, improved; splendid shades and markings. *Bridal Veil*, pure white.
Dr. Bulgar's Hybrids, new; fine. Sep. 5c. Complete Mixture 5c.

TROPAEOLUM, Dwarf *Nasturtium*, 1ft, bright, free and continuous blooming annuals for beds or edgings.

Colors: Apricot, Orange-scarlet, Vivid scarlet, Yellow flaked red, Bronze, Carmine, Straw spotted red, Yellow, Pearl White, Gold King, Orange spotted, Gold with yellow foliage, Yellow marbled scarlet, Black-red, Salmon, Raspberry Red, Orange spotted red, Crimson, marbled foliage; Scarlet, marbled foliage. Separate or in Complete Mixture.

VINCA *Rosea*, 1ft, splendid everblooming plants for beds or pots; like hot sun. Flowers Phlox-like, beautiful. Colors: Rose, White, White eyed, Carmine, sep. or mixed. *Viscaria*, New Dwarf, 8in. free-blooming, beautiful annuals for beds or pots. Colors: Pure White, True Blue, Blood Red, separate or mixed, 5 cents.

Valeriana, 3ft. Alba, *Rosea*, *Rubra*, fine to cut, sep. or mx'd. *Vittatensis triloba*, 8in. many rosy white daisies; fine edge

Santolina, 1ft, Lav. Cotton, yellow.
Schizopetalon, 1ft, good-luck, scented
Sedum coeruleum, 3in. blue *Stonecrop*
Senecio elegans, 18in. double, for beds;
White, Blue, Violet, Rose, Mixed.

Solanum atropurpureum, 4ft, showy.
Giganteum, 10ft, blue, showy foliage.
Laciniatum, 5ft, very ornamental.
Albidum Portmannii, foliage plant.
Ciliatum, 1ft, scarlet fruits, thorny.

Spergularia azaroides, blue, small.
Sphenogyne speciosa, 1ft, yellow daisy-like flowers, dark zone, beautiful.
Stevia Eupatoria, 18in. white corymbs.
Serrata, 2ft. pure white, fine to cut.

SCABIOSA

Very beautiful hardy annuals, showy in beds and fine for cutting. Easily grown. Sow early in beds and thin, or sow in a box and transplant. Set 6in. apart. We freely praise this lovely flower.

Tall Large-flowered: White, Rose, Scarlet, Brick-red *Azure Fairy*, Red and white, Purple and white, sep. or mixed.

★ **New Dwarf Improved** Double Large-flowered, 18in. *Azure*, *Blood Red*, *Rich Campton*, Pure white, Purple-violet, *Bright Rose*, sep. or mixed.

S. Minor Aurea, 3ft, double golden yellow and *S. Candidissima*, 3ft, double white, good for cutting, each 5 cents.

Note.—We especially recommend the Dwarf Large-flowered *Scabiosa*. The plants stool out and cover the bed, stand erect, and bear a wealth of lovely double flowers on strong stems. We feel assured you will like this charming race much better than the tall varieties.

SILENE *Pendula*, Double, 4 to 8in. exceedingly pretty, attractive hardy annuals of spreading habit. Flowers very abundant covering the plant. Fine for edgings and beds. *Bijou*, double, salmon, fine. *Bonnetii*, dbl, rosy magenta. *Ruberrima plena*, dbl, purple. *Triumph*, dbl, and *Syringa Blue*, *Aba fl. pl.* and *Rosea fl. pl.* each Special mixture of all.

Silene Maritima, 2ft. white, rare. *S. Orientalis compacta*, rose.

STOCK, Ten Weeks and Virginia

The Ten Weeks Stock is the best of annuals. Plants are easily grown, and bear continually long spikes of flowers, as double as a Rose, deliciously scented, and of the loveliest colors. Our seeds are of best strains, and saved only from pot-grown plants.

Dwarf German, 1ft. early-flowering, finest double. Colors: White, Canary, *Pearly Crimson*, *Deep Blue*, *Light Blue*, *Rose*, Separate or mixed. **New Beauty**, 2ft. the finest of Stocks, profuse, double, and in many choice colors: White, *Rosy-lilac*, *Canary*, *Blood Red*, *Violet*, *Aurora*, *Peach*, *Pink*, *Purple*. Separate or Mixed, 5 cents.

Marathon Column, 3 ft., one tall spike, double, showy and beautiful. Colors: White, *Shining Blood-red*, separate or many colors mixed.

Other Fine Stocks: *Victoria Bouquet*, 1ft.; *Large-flowered Dwarf* 15 in.; *Bismarck*, 2 ft.; *Giant Perpetual* 2 ft.; *Dresden Perpetual*, 2ft. White, *Canary*. These all bear fine double flowers; supplied in Finest Mixture. Also, we supply a Complete Special Mixture of all sorts. 5c.

STOCK, Virginia, 1 ft. showy, handsome annuals; fine for beds, or winter-blooming in pots. Red, White, *Crimson*, *Carmine*. Sep. or Mixed.

Virginia Stock

Verbenas, first-class flowers for pots or beds.

Note. Verbenas are first-class flowers for beds or pots. Plants are easily grown from seeds and bloom early, freely and continuously until winter. The large flowers come in big clusters, are deliciously fragrant, good for cutting, and very attractive. By all means add Verbenas to your list. Our seeds are of the finest Mammoth strains, and will give the best results. The Mammoths are the most desirable of Verbenas.

Viola Cornuta 6in. pretty Scotch Violets.

These have the merits of Pansies, but are Violets in form. They bloom profusely and continually, and are quite fragrant. They are beautiful flowers, of easiest culture that no garden should be without. We offer these finest varieties: White Perfection, Blue Perfection, Lutea chrome yellow, Hybrid Viola Admirable deep blue, Rose Queen, Spring Messenger purple, ★Papilio blue with white. Sep. or mixed, 5cts

Viola Tufted Pansies. These are lovely hybrids, and very desirable. We supply the best: Admirabilis blotched, Ardwell Gem chrome yellow, David Simpson marbled crimson, Firmament sky blue, Nora Marrow rosy-lavender, Primrose Dame sulphur, Purple King violet, Snowdens white, all long free bloomers; sep. or mixed.

Viola, Bosniaca deep purple, and V. Munbyana early blue, both splendid species, separate or mixed.

Note. *Viola Papilio.* This is the Butterfly Violet, so-called because of the "butterfly fluttering of its petals." It is distinct and beautiful, bearing its lovely flowers in wonderful profusion throughout summer, and until cold Winter hides the plants under a coverlet of snow. Use for an edging or a bed; it does well in sun or shade, and always elicits high praise from those who see it in bloom. It is a good thing.

Wallflower Kewensis, a very fine kind, blooms 5 mos. from seeds; sulphur passing into orange. Started in July plants bloom freely in pots in winter. Easily grown.

Wallflower, Early Parisian, 1ft.; bloom in 4 months; fine for beds in Summer and pots in Winter; flowers abundant, sweet-scented. Colors: Light Brown, Blood Red, Cream Yellow, Yellow with black bud, separate or mixed.

Whitlavia, Large-flowered, 1ft. very pretty annuals with lovely bell-shaped blue flowers throughout the season. Of easy culture. White, Violet Blue, Light Blue with white throat; like a miniature Gloxinia. Separate or mixed, 5 cents.

Stokesia Cyanea, 1ft, blue Fall Aster.
Symphandra Hoffmanni, 1ft, white.
Trachelium Coeruleum, 2 feet, blue.

Trifolium suaveolens, 1ft, rose, sweet.
Tunica saxifraga, lilac, low edging.
Trifolium mirabilis, 3ft, Hybrids mixed
Venidium calend. 2ft, golden daisies.
Tropaeolum minus, 18in. for pots, red. **Veronica Syriaca,** 6in. azure, for pots.

VERBENA, New Mammoth

THE Improved Verbenas are elegant summer-blooming plants, the rich and fragrant flowers coming in big clusters and making a fine display throughout the season. Seedlings are easily grown, and thrive in any rich, sunny bed. They are among the most showy, pleasing and satisfactory of garden flowers. For pots use the Dwarf. Snow Queen, pure white, fine. Striata, charmingly striped. Auricula, rich colors, eyed. Fairy Queen, lovely soft pink. Royalty, vivid blue shades. Purple Cloak, red, white eye. Firefly, dazzling scarlet, fine. Defiance, fiery scarlet. Miss Wilmot, salmon-rose. Rose and carmine shades. Pink, large-flowered, fine. Celestial, light blue shades. The above splendid Mammoth Verbenas, sep. or mxd. 5c. Other Verbenas, Aubletia grandiflora, 1ft, lilac; Drummondii, various shades; Erinoides (Moss Verbena) Violet, also White, both profuse and continuous bloomers; Venosa, 1ft, for beds, lilac. Sep. or Mxd 5c. Dwarf compact mxd 5c.

ZINNIA, Giant Dahlia-flwd.

The Zinnia has been a favorite garden flower for years. I recall my boyish pleasure with the original single red Zinnia which I grew by the old garden walk. Then came the Double Zinnia in various colors, far surpassing it in beauty. But the Improved Dahlia-flowered rivals the Dahlia in size, form and color, as also in showiness and beauty, while it thrives and displays a wealth of bloom in blazing sunshine and under other adverse conditions that would destroy the Dahlia. Plants are easily grown from seeds, begin to bloom early, and make a glorious display until the coming of severe frosts. We freely recommend this latest and best Zinnia. No garden annual excels it. Our seeds were saved by the specialists who developed these monster Zinnias, and are of surpassing quality.

NEW GIANT DAHLIA-FLOWERED ZINNIA
Exquisite truly Dahlia-flowered, size and form, tyrian rose, fine.
Crimson Monarch, giant plants, flowers often 8in. across, glowing.
Oriole, huge plants, large blue flowers; rich orange and gold.
Dream, the very best; free-blooming, big flowers, lavender blue, fine.
Buttercup, immense plants, rich creamy yellow flowers; lovely.
Polar Bear, immense chaste white double flowers, profusely borne. The above separately or in splendid mixture, choicest seeds, only 5cts.
Other Splendid Double Zinnias, Finest Quality.
Pumila dwarf, 1ft. lovely for beds, branching, very free-blooming; Colors: White, Rose, Crimson, Scarlet. Separate or Mixed.
Grandiflora Robusta, 3ft., Benary's Special Mixture, very showy.
Crispa, 2ft, crested petals, double, very fine, very good for cutting.
Achievement, splendid quilled, very beautiful, rich colors, mixed.
Robusta Striata, 3ft., large, exquisitely striped double.
Grilliana, 1ft. very small flowers, fine in beds and for cutting.
Lilliput, 1ft, branching plants with small, double flowers, finest mxd.
Haageana-Perfection, the lovely Mexican Zinnia, Finest mixed.

Fine Ornamental GRASSES for Beds and Bouquets

Agrostis Nebu, 1ft. fine in bouquets.
Pulchella, 9in. pretty, green or dry.
Anthoxanthum gracile, 9in. lovely.
Avena sterilis, 3ft. Animated Oat.
Avena nuda, Elegant Naked Oat.
Arundo Donax variegata, 10 ft.
Brachypodium distachyum and **Gracile,** both fine for bouquets.
Brizopyrum siculum, trembling fr.
Briza maxima, 18in. Quaking Grass.
Gracilis, 1ft. small Quaking Grass.
Bromus briziformis, 2ft. for beds.
Macrostachys, large spikes, fine.

Ceratocloa pendula, handsome.
Chloris barbata, fine, green or dry.
Chrysurus aurea, 1ft. golden spikes.
Coix lachryma, 2ft. Jobs Tears, fine.
Aurea zebra, striped foliage.
Elymus oligostachya, fine to dry.
Elymus giganteus, 8ft. for groups.
Eragrostis elegans, 2ft. love grass.
Capillaris, fine for bouquets.
Erianthus ravenna, 4ft. gray spikes.
Palula Jap. var. lovely for groups.
Euchloa luxurians, 3ft. handsome.
Bromus Madritensis for bouquets.

Festuca rigida, 1ft. 'little comfrey'.
Stipoides, Feather-like Fescue.
Gymothrix latifolia, 7ft. nodding.
Glycerium argenteum, 5ft. Pampas.
Hordeum jubatum, 1ft. squirrel tail.
Lagurus ovatus, 1ft. silky heads.
Panicum altissimum, 6ft. Guinea.
Capillare, 2ft. lovely in bouquets.
Plicatum var. creeping, showy.
Sulcatum, Palm-formed for pots.
Virgatum, 5ft. fine for beds.
Paspalum elegans, 3ft. ornamental.
Pennisetum long. 2ft. bouquet grass

Tricholena roses, 2ft. beautiful.
Ulatia latifolia, 4ft. fine for vases.
Zea Japonica var. 3ft. striped corn.
Quadriceol, 4 colored, 3ft. fine.
Mixture of Zea 5c. Grasses mxd. 5c.

EVERLASTINGS

Complete Special Mixture, 5 cents.

The Everlastings have straw-like petals, and when cut and dried in the shade, they retain their form and color, and can be used with dried Grasses in bouquets and designs for table decoration in winter. Some of them, as *Acroclinium* and *Rhodanthe*, should be cut just as they begin to open, to get the best results; but *Double Helichrysum*, *Ammobium*, *Gomphrena*, *Statice*, *Xeranthemum* and others should remain until fully developed. All are easily grown from seeds, and bloom the first season, being mostly annuals. *Helichrysus* and *Gomphrenas* are the most showy, and are useful for a summer display in beds. The *Gomphrena* is much

used in the South for exposed sunny beds, providing a rich display continuously.

ACROCLINIUM, Graceful, slender plants, a foot high, bearing continuously pretty daisy-like, double flowers in abundance. A good everlasting. Double White, Rose; sep. or mixed 5c.

AMMOBIUM alatum grandiflorum, a branching annual, two feet high; flowers double, pure white, freely borne during summer. It has winged stems and likes sandy soil. A splendid one.

CELOSIA spicata, two feet high, bear-

Acroclinium

ing stiff, long spikes of small rosy flowers. A pretty annual, easily grown, useful in beds and for drying.

GNAPHALIUM foetidum, 2 feet, a composite annual; dense yellow heads

GOMPHRENA globosa, a beautiful annual from India. Flowers globe-like, freely produced, and very attractive in beds or pots, and also, in winter-bouquets. The plants are excellent for garden and greenhouse

decoration. They grow a foot high, and, set 8 inches apart, cover the bed. The dwarfs, six in. high, are fine for pots and edgings. We offer *Aurea superba*, orange, White, Flesh, Rose Carmine, Striped; separate or in mixture, 5 cents. *Nana Compacta*, dwarf, very free-blooming; Carmine, White; separate or mixed. Do not omit this splendid annual from your order.

GYPSOPHILA elegans, 18 in. Rose, Red, White, and Grandiflora White; very valuable for bouquets either green or dry. The varieties separate or in mixture 5 cents. We can also supply *Gypsophila muralis*, 6 in. lovely for edgings and carpets, and *G. paniculata*, single and double, white; also pure white.

HELIPTERUM Sanfordii, 1ft. the plants branching and bearing a head-like cluster of small chrome-yellow flowers at the tip of each branch. *H. Corymbiflorum*, white, yellow center.

Note. *Helipterum* and *Rhodanthe*, both lovely everlastings, are near relatives of *Helichrysum*, the most showy and beautiful of all flowers for drying. All are of easy culture, starting readily from seeds, and blooming abundantly the first season, being annuals. In Europe, the *Rhodanthe* thrives well, and is much grown in pots, selling readily on the market.

Gomphrena globosa

★ **HELICHRYSUM monstrosum fl. pl.** 3ft. very handsome large double flowers; showy in the garden and the best of the everlastings, retaining their form and bright colors perfectly when dry. We offer these fine varieties: *Album fl. pl.* large white flowers, *Borussorum Rex*, pure white, fine. *Roseum*, lovely rose color; very good. *Luteum*, clear shining yellow, *Purpureum*, rich deep violet.

Statice

Rubro-salmoneum, salmon purple.

Sulphureum, light sulphur.

Fireball, fine scarlet with orange.

Fuscatum, dark brown.

Aurea, golden yellow; splendid.

The above fine named kinds were saved from choice double flowers and will give the best results. 5 c.

LONAS inodora, 1ft. small yellow flowers in dense terminal heads

MOLUCELLA laevis, 2ft. fragrant white flowers in whorls; the persistent shell-like calyx, curious and attractive; retains its form and color when dry.

PHYSALIS Franchetti, Chinese Lantern, large orange balloon like fruits in long racemes; edible when fresh; beautiful.

POLYCOLYMNA Stuartii, 2ft. white, easily grown.

RHODANTHE, pretty annuals, graceful aster-like flowers; fine pot plants for the plant-stand or for market; good for drying. *Manglesii*; rose, white, mixed; *Maculata*, rose, white and mixed. Separate or in complete mixture, 5 cts.

STATICE, Sea Lavender, many kinds; all prized for bouquets either green or dry. We offer the best varieties:

Bonduellii, 2ft, yellowish.

Incana nana, 1ft. fine mixed.

Latifolia, 2ft. blue, splendid.

Macrophylla, 2ft. dark blue.

The above varieties separate or in complete mixture: 5 cts.

XERANTHEMUM, 2ft. beautiful easily-grown annuals; showy in beds and excellent for drying. Flowers large, full-double and of lovely colors. *Double Imperial*, *Dark Red*, *Rose*, *White* and mixed. Separate or all in complete mixture. 5 cts.

Xeranthemum

CULINARY AND MEDICINAL GARDEN HERBS

Angelica archangelica, 5ft. biennial; large leaves; big umbels of small white flowers. When steeped, the roots and seeds yield an aromatic tonic. In Lapland it is used as a condiment.

Anise, 1ft. annual; umbels of white bloom; seeds used for flavoring; also for tea to relieve colic; delightfully fragrant.

Artemisia vul. Mugwort, 4ft. perennial; pretty fragrant fol.

Basil, Sweet Purple Bush, 1ft. annual; leaves used in soups.

Balm, Melissa, 2ft. perennial; lemon flavor, whitish bloom.

Borage, 2ft. perennial; blue, white, drooping; used for drinks.

Caraway, 1ft. biennial; white umbels, fragrant seeds.

Catnip, 2ft. per. tea from the tops aids digestion; bee pasture.

Coriander, 2ft. annual, white umbels; seeds used to flavor.

Cumin, 6in. annual, rosy-white umbels; seeds used to flavor.

Dandelion, 6in. very showy golden bloom; salads in spring.

Improved Broad-leaved, early; fine winter salad if forced.

Dill, **Anethum**, 2ft. biennial, yellowish umbels, seeds as flavor.

Elecampane, **Inula**, 3ft. per. golden bloom; roots medicinal.

Fennel, 5ft. biennial, fine fragrant foliage; used as salad.

Horehound, 2ft. per. a bitter root used for cough remedy.

Hyssop, 2ft. per. ornamental mint and pot herb; expectorant.

Lavender, 2ft. per. flowers blue, plant delightfully scented.

Lovage, 1ft. per. white umbels: seeds aromatic; a pot herb.

Majorum, Sweet, 2ft. annual plants used for flavoring.

Majorum, Pot, 2ft. per. grown in pots; branches culinary.

Pennyroyal, **Mentha Pulegium**, 8in. lilac bloom; aromatic.

Rosemary, evergreen shrub, 3ft. leaves used for seasoning.

Sage, Broad-leaved, 1ft. sub-shrub; leaves used in cooking.

Savory, Summer, 1ft. annual, flowers lilac, leaves for seasoning.

Savory, Winter, 1ft. sub-shrub, pale purple: used to flavor.

Tansy, Garden, 2ft. per. in old gardens; mossy foliage.

Thyme, French, 6in. sub-shrub. rose-purple: aromatic mint.

Thyme Winter, Broad-leaved, lemon: leaves prized in cooking.

Wormwood, **Absinthum**, 1ft. very bitter; medicinal foliage.

Complete Herb Mixture, 5 cents; separate, 5 cents.

Ornamental Vines

Beds of flowers tastefully disposed give brightness and beauty to a place, but it is the Climbers that afford coziness and special charm to a home. They beautify unsightly spots; they break up the monotony of the grounds; they supply, like Jonah's gourd, quick shade from the burning sun. A good variety of these plants should be found at every home. They are indispensable in giving a homey appearance, and imparting cheer and comfort and contentment to the inmates. The plants are readily started from seeds, and easily transplanted to where you wish them to grow.

Furnish support as soon as they begin to run. Complete Special Mixture, 5 cts.

Lophospermum

BEAN, Improved Scarlet Runner

An easily-grown, robust vine, bearing freely large clusters of rich, showy, scarlet bloom, followed by big pods of large edible beans. Pick before ripe to promote a continued bloom. They are, besides, much more palatable if used when green.

Scarlet Runner Bean

Bryonia cretica *Laciniata*
A lovely rapid vine of the Gourd family; flowers small fruits green, with brown blotches; a fine climber. 5 cts.

BENINCASA *Cerifera*, robust vine, with large leaves and big showy yellow flowers four inches across, followed by attractive white fruits that are good for preserves and pickles.

BRYONIA *Dioica*, strong-climbing, large-leaved perennial herbaceous vine with tuberous roots; flowers small, greenish-white, succeeded by red berry-like fruits. 5 cents.

CALAMPELIS *Scabra* a climbing shrub, bearing scarlet, carmine or golden racemes of bloom the first year; an elegant vine for walls, pillars or trellises. Colors sep. or mixed.

CARDIOSPERMUM, pretty graceful vines 15ft. Flowers small; seed-vessels balloon-like; handsome.

Calicacabum, smooth stems, 5 cts. **Hirsutum**, hairy stems, 5 cts. All mixed, 5 cts. A lovely perennial, but usually grown as an annual.

CARDINAL Climber, 20ft, a hybrid *Ipomoea* similar to *Cypress* Vine. A good trellis vine. 5 cts.

CAJOPHORA *lateritia*, 5ft, a handsome annual; brick-red, **COBAEA** *scandens*, 20ft, the beautiful "Cup and Saucer Vine"; flowers large purple cups; also white; attractive foliage; one of our best climbers. Separate or mixed. 5 cts.

COBAEA *macrostema*, rapid growing vine with charming foliage; flowers green, violet tipped; new and interesting. 5 cts.

CONVOLVULUS, Morning Glory, Large-flowered; the old sort improved: flowers unsurpassed in beauty and profusion; should be at every home. White, White with rose, White striped rose, White striped violet. Flesh, Carmine, Rich Dark Red, Light Blue, Blue, Black Blue; sep. or in mixture. Double-flowered and semi-double in splendid mixture. 5 cents.

Aureus superbus, the charming golden Morning Glory; new and beautiful; 5 cts. **CANARY** Vine, 15ft, a lovely vine; flowers yellow, resembling a canary bird.

COMMELINA, pretty perennials 2ft. *Coelostis* has tuberous roots and navy blue flowers; *Sellowiana* has large cobalt blue flowers; both are handsome. Separate or mixed, 5 cts.

CENTROSEMA *grandiflora*, Butterfly Pea, red flowers.

Morning Glory

CLITORIA *ternatea*, 5ft, beautiful royal blue flowers; rare. **COCCINEA** *indica*, 6ft, large white bell-flowers; red fruits **DOLICHOS**, Hyacinth Bean, easily grown bean-like vines, useful for covering fences or small buildings; flowers deep purple and white; either color or mixed, 5 cts. **Giant Japan** **Dark Red**, Darkness; also **Giant White**, Daylight; **Texas** **Giant**, violet-red. Complete mixture of above sorts, 5 cts.

Gourds in variety

The Gourd family embraces a great variety of flowers with fruits that are wonderfully interesting. Some are prized for their foliage, some for their flowers, and others for their interesting fruits, which are of many sizes, colors and variegations, all ornamental, and some desirable for food. We urge our friends to get at least some mixed seeds of gourds and cucumbers. They will afford much satisfaction and pleasure.

LAGENARIA *Vulgaris*. This class includes the Dipper Gourd, Bottle Gourd and others. Vines 20 to 30 ft; flowers white, handsome and having the perfume of musk. We can supply Siphon or Dipper, large fruits with a long handle; used for drinking dippers, bird houses, etc, **Hercules** Club, long slim fruits, 5ft, showy, edible, **Bottle Gourd**, very large, bottle-shaped, with necks. **Powder Horn**, large, horn-shape, **Sugar Trough**, large, spherical, used for sugar troughs, lard cans, etc, **Corsican**, or **Dish**, large depressed fruits; fine for receptacles **Enormis**, immense fruits, odd and useful, **Minima**, very small; used for pipes and toys; sep. or mixed, 5 cts. a pkt.

Cucurbita ovifera, the small, fancy, hard-shelled gourds used as children's toys; yellow bloom; 6ft, **Bicolor**, green and gold; charming, **Miniature**, round, dark green; gold-striped, **Orange**, resembling a citrus fruit, **Egg shaped**, white, Japan, used for nest eggs, **Depressa**, flat; dark green striped yellow, **Apple Gourd**, early, pure white, pretty, **Pear Gourd**, yellow ringed green, **Pear striped**, green with longitudinal white bands. **Pear-shaped**, white, handsome. These small fancy gourds, separate or mixed, 5 cts. Nothing amuses children more than a collection of these fancy little gourds,

Cucurbita ficifolia, the beautiful Malabar Melon, prized for its foliage and large, globular showy fruits, green striped white

Cucurbita *Maxima*, Giant Pumpkins, Very Large Tours, often 100 lbs, gray-green with deeper markings; edible, **Potiron** *Globe*, pale yellow, largest of Pumpkins; keeps well and is of good flavor, **Etampes**, large, slightly flattened; flesh thick, orange, sweet and of excellent quality; skin, bright orange-red, beautiful, **Gray Boulogne**, fruit gray, often 3ft, across; the flesh thick and good, **Mammoth White**, large, pale or cream flesh, **King of Mammoths**, very large, productive. These Giant Pumpkins are all edible as well as showy and ornamental. Separate or mixed, 5 cts, a packet, **Cucurbita argyrosperma**, the interesting Silver-seeded Gourd,

CUCUMIS *flexuosus*, the Snake Cucumber, often 3ft, long, coiled to resemble a snake; A curious ground vine; **Dudaim** is another cucumber not unlike an orange in shape and color, and deliciously scented; grown for its perfume,

CYCLANTHERA, 10ft, vigorous, with handsome foliage; fast grower, **Explodens** has egg-like fruit that explodes when ripe, **Pedata** is similar; both have edible fruits; sep. or mixed.

The Gourd Family, continued

ECBALLIUM elaterium, Squirting Cucumber, a trailing perennial; flowers yellow, bell-shaped, an inch across; fruit 2 in. long, violently ejecting the seeds when ripe, 5 cts.

ECHINOXYSTIS lobata, Wild Cucumber; 30 ft., a graceful, rapid-growing vine with curious fruits; likes moist soil.

LUFFA, the Dish-rag Gourd, a handsome vine in foliage, flowers and fruit; vigorous and always admired; fruits used as dish rags, **Acutangula**, golden flowers, large fruits; beautiful; **Macrocarpa**, large smooth fruits; **Marylandica**, also **Cylindrica**, both handsome sorts; **Sooly Qua** has pretty small fruits, All these handsome Luffas, separate or mixed, 5 cts.

MOMORDICA, Balsam Apple, a pretty vine 6 ft., bearing showy red fruits the size of an egg, **Charantia**, Balsam Pear, pear-shaped, red; fruits of both are used for making a salve.

TRICHOSANTHES anguinea, Serpent Gourd, a climbing annual; flowers white, 2 in. across, showy; fruits slim, 5 ft. long, twisted, snake-like, edible; a handsome vine, **T. Colubrina**; known as Viper Gourd, is the same vine, 5 cts, a pkt.

HUMULUS Japonicus variegatus, a free-growing climber with light green leaves distinctly edged white; a grand vine for covering any unsightly objects, or for shade; easily grown,

IPOMOEAS

Ipomoeas are among the most desirable of vines. They start readily from seeds, grow rapidly, bloom throughout the summer, and are hardly surpassed for covering old walls, buildings or trellises. Give strong support early. We offer the following splendid kinds: **Bona Nox**, the Evening Glory, a vigorous vine with showy rosy violet flowers. **Coccinea**, a smooth, handsome vine of quick growth; flowers orange-scarlet, like Cypress Vine, lasting throughout the day; very beautiful. **Grandiflora alba**, Moonvine, rapid and free-blooming; large, white, fragrant flowers; a splendid vine. **Black seeded**, 5c. **White seeded**, 5c. **Hederacea**, the handsome Ivy-leaved; beautiful sky-blue flowers.

Huberi, variegated leaves; mxd. **Imperialis**, the Japanese Imperial Morning Glory; robust vines of easy culture; flowers like our Morning Glory but larger, more varied in color and variegation, and free blooming. Our seeds are of fine new giant varieties, and are sure to please; mixed, 5 cts.

Leari, intensely dark blue; a splendid perennial which blooms the first season. **Limbata elegantissima**, blue, edged white, **Mexicana**, a tuberous-rooted vine with a profusion of lovely lilac bloom; cottony seeds.

Nil Grandiflora, a graceful vine with large bell-shaped blue flowers; pretty. **Quamochit**, Cypress Vine, a tall, rapid vine with fern-like foliage; flowers small, profuse, always open; Red, White, Rose, Separate or the colors mixed, 5 cts.

Rubro-coerulea grandiflora, the large early-flowering sort bears a wealth of exquisite heavenly blue flowers, also White; either color or mixed, 5 cts.

Sanguinea, free growth, pretty foliage, deep scarlet flower. **Scarietina**, a lovely vine; cinnabar red bloom.

Setosa, Brazilian Morning Glory, large, rose flowers. **Vioacea** vine is same as **Rubro-coerulea**. Complete mixture of all Ipomoeas, 5 cts.

LATHYRUS Azureus, Lord Anson's Pea, a strong-growing vine bearing bluish-purple flowers on long many-flowered stems.

Rouandiflorus, 10 ft. coppery red, large, borne upon long many-flowered stems.

Tingitanus, 6 ft. large purple standard, keel bright red. A handsome annual.

LOASA, see **Caiophora**, 5 cts.

LOPHOSPERMUM Scandens, a lovely

New Frilled Giant Spencer Sweet Peas

new, best varieties in all colors, Those starred were lately chosen by a committee of the National Sweet Pea Society of England as the best varieties in their color. Our Special Complete Mixture contains all our Spencer and Grandiflora varieties. Price 1-4 lb. 40 cts., oz. 12 cts., pkt. 60 to 75 seeds, 5c.

★ The Best Giant Spencers

Please Note. We prepare but one blend of Giant Spencers, and that is the best that can be made. They will delight you. This blend is prepared by us with great care and is unexcelled.

Sweet Peas continued on next page.

Ipomoea

Cypress Vine

Grandiflora, very large, exquisite Sweet Peas in all colors. We offer the finest of many choice varieties as follows:

America, red and white stripe. Mrs. E. Kenyon, fine primrose.
Aurora, white flaked orange. Janet Scott, deep pink.
Blanche Ferry, rose and white. King Edward, bright red.
Dorothy Eckford, large white. Lady G. Hamilton, lavender.
Emily Henderson, early white. Lord Nelson, deep navy blue.
Flora Norton, bright blue. Miss Wilmot, orange pink.
Helen Pierce, blue and white. Prima Donna, soft pink.

These splendid named, large-flowered Sweet Peas in carefully proportioned special mixture, or separate, per oz. 8 cts. pkt. of 75 seeds, 5 cts.

NEW GIANT CHRISTMAS SPENCER

These Sweet Peas bloom several weeks earlier than the Standard varieties, and are mostly grown in greenhouses to supply cut flowers for the early market. They are, however, as large and handsome as the other Spencers, and do well in the garden. Try them.

Aviator, dazzling, dark scarlet. Giant Rose-pink, like Hercules.
Blue Bird, rich azure blue. Madonna, giant pure white.
Glitters, rich orange-scarlet. Warbler, rich mauve purple.
Harmony, clear lavender, fine. Yarrowa, rose, blush wings.

Separate, pkts. of 30 to 40 seeds, 5 cts. Complete mixture, carefully proportioned, oz. 30 cts.; packet 40 to 50 seeds, 5 cts.

Cupid Sweet Peas. We supply these in fine mixture at 8 cts. per oz.; 5 cts. a pkt. of 75 seeds. They are dwarf, need no support, come in many colors and varieties, and are prized by some people. Our mixture is unsurpassed.

Note. Sow early in a trench running north and south, covering a fourth inch deep, and drawing the soil in as the plants grow. When the soil is level cover it with tobacco stems, and supply a chicken-wire trellis into which tobacco stems have been woven. This will effectually ward off an attack of plant lice, which recently have been troublesome in some sections. The tobacco stems act as a fertilizer. Many growers prepare the soil by spading two feet deep in autumn, stirring into the bed a liberal application of rotted stable litter. When thus prepared the plants grow vigorously, and the flowers and clusters are of the largest size.

THUNBERGIA ALATA

An Elegant Flowering Vine, Complete mixture 5 cts.

Thunbergia Alata

This vine is admirable for a trellis or summer house, or to cover any unsightly object. Its wealth of foliage and bloom elicits enthusiastic praise. Be sure to add *Thunbergia* to your order. Separate or mixed, 5 cts.

VICIA Gerardi, 4 ft. lovely climber, racemes of blue flowers. **Snowdrift**, 6 ft. a quick-growing beautiful climber; pretty foliage and superb white flowers in abundance. New. Elegant for a trellis screen or handsome low hedge.

Biennials and Perennials

IN THE following pages we offer and briefly describe the best hardy herbaceous perennials. These are often called the "Poor Man's Flowers", as when once established, most of them will last for years, withstanding the winter's cold, the summer's drought, and encroachments of grasses and weeds. Many of them are beautiful, and when blooming are the most attractive and admired flowers in the garden. They are not difficult to start from seeds, and are always a source of pleasure. Do not fail to start a fine bed of perennials this season. Of a few kinds, as *Dictamnus*, *Primula officinalis*, etc., the seeds will often lie dormant in the ground for a year: but most of them will germinate promptly, and the plants are easily transplanted. Mixture of perennials, 5 cents.

ACANTHUS lusitanicus, (latifolius) 3 ft. broad glossy cut-foliage; curious showy pale purple flowers in long spikes.
ACHILLEA Ageratum, 3 ft. heads of fragrant golden bloom.
Filipendula, Parker's, 2 ft. robust; l'ge yolk-yellow heads.
Kelwayi, 3 ft. magenta red, showy, tenacious heads.
The Pearl, 2 ft. double white, fine; splendid for cutting.
ACONITUM Napellus, (Monkshood) 3 ft. dark blue; choice border plant like Larkspur; once started it retains its place; a fine perennial.
Lycototum, 3 ft. flowers yellow, erect spike-like racemes.
Fischeri, 4 ft. deep blue flowers, beautiful and attractive.
Uncinatum, 7 ft. deep blue, handsome native climbing sort.
Wilsonii, 8 ft. from China; tall, climbing; large blue flowers.
ADLUMIA, cirrhosa, vine, 20 ft. fine foliage, pink clusters.
ADONIS vernalis, 1 ft. large golden flowers in early spring.
AGRGSTEMMA coronaria, 2 ft. showy phlox-like flowers; White, Violet, Blood-red and Bicolor, separate or mixed.
Flos Jovis, 1 ft. Jove's flower, rose clusters, charming.
Walkeri, 2 ft. a fine hybrid; brilliant rose-purple.
ALYSSUM argenteum, 2 ft. silvery foliage, golden bloom.
Rostratum, 1 ft. dwarf, compact, yellow, free flowering.
Saxatile compactum, 1 ft. Gold Dust, gold-flow'rd perennial.
ANCHUSA, 2 ft. rich blue, in short spikes, beautiful.
Dropmore, 5 ft. large pure Gentian blue; fine to cut.
Barrelieri, 3 ft. earliest, dwarf, dark blue; very handsome.
ANTHEMIS Nobilis, 1 ft. Chamomile, white, very handsome.
Kelwayi, 2 ft. flowers yellow and white, free-blooming.
Tinctoria, 2 ft. Golden Marguerite; fine to cut.

ANTHERICUM liliatum giganteum, 2 ft. flowers large, white, lily-like, free-blooming. A fine perennial; should be better known.
AETHIONEMA grandiflorum, 1 ft. rose flowers, long racemes.
ARABIS Alpina grandiflora, 1 ft. earliest of spring flowers; plants spreading and almost hidden with clusters of large, showy pure white cup-like bloom; very beautiful.
ARENARIA montana, 6 in. spreading, becoming a sheet of white bloom; long-blooming; a fine edging for dry soils.
ARMERIA formosa, 2 ft. Benary's fine hybrids, mixed colors.
Martima rosea, 1 ft. cushions of lilac-rose in heads.
Splendens, 1 ft. bright rosy-magenta, beautiful and showy.
ARNICA montana, 1 ft. yellow flowers from tufted plants for border or rockery; rare and handsome.
ASCLEPIAS tuberosa, 1 ft. shades of orange and scarlet.
ASPERULA odorata, Sweet Woodruff, 1 ft. flowers snowy white in terminal corymbs. When dried, the branches impart a rich hay-like perfume to clothing and ward off insects.
ASPHODELUS luteus, 4 ft. yellow, fragrant flowers in long, dense, erect racemes at the summit of strong, leafy stems; the best sort; a desirable hardy perennial of the Lily family.
ASTILBE Davidii, 6 ft. bears long, graceful panicles of rosy-violet flowers; a rare, magnificent perennial.
AUBRIETIA, 6 in. spreading plants that form a sheet of early spring bloom; a beautiful haady perennial. We have **Eyrrii**, large blue, splendid. **Grandiflorus**, new large-flw'd **Graeca**, light blue, floriferous. **Purpurea**, violet hues; fine. The above in Complete Mixture, 5 cents.

AQUILEGIA, the Beautiful COLUMBINE

WE HAVE a splendid collection of these graceful, showy and beautiful perennials. All are hardy, easily grown, free-blooming, and greatly admired. Don't fail to start a bed of them this year. They delight in moist soil and partial shade. The Columbines are often called Honeysuckles, because their long spurs contain honey, and are frequently visited by humming birds and butterflies to obtain the treasured sweet. Some bear double flowers, but the long-spurred single kinds are really more graceful and beautiful. All are deserving of culture.

Alpina, 1ft. blue flowers 3 in. across, two or three on a stem; from Swiss Alps; likes shade; fine.

Superba, a new superb variety, deep blue and white in striking contrast; magnificent.

Baicalensis, 2ft. beautiful blue with snow-white corolla; a handsome and desirable Columbine.

Californica hybrida, 3ft. sepals and petals tinged orange, long, carmine-lake spurs; beautiful.

Canadensis, 1ft. old rose and golden yellow, nodding; very graceful; early spring; splendid.

Caryophylloides fl. pl. 2ft. beautiful striped varieties, the flower large and double, mixed, 5 c.

Chrysantha, 3ft. chrome yellow, long spurs, blooms all summer; one of our finest perennials.

Grandiflora alba, a sort with lovely large snow-white bloom; new and charming.

Double-flowered, a variety with large, double, golden yellow flowers; best of double Columbines.

Jaetschaui, 3ft. large golden blooms with peach-red spurs.

Nivea grandiflora, 3ft. pure white, large, semi-double.

Olympica, 3ft. big blue flowers with lovely white corolla.

Scott Elliott's Long-spurred hybrids, mixed colors; splendid.

Siberica, 1ft. large, double; Blue, Rose, Red; sep. or mixed.

Skinnerii, 2ft. red spurs, yellowish corolla, free-blooming.

Stellata fl. pl. 3ft. double, erect flowers in abundance, mixed.

Truncata, 3ft. old rose with yellow; a very beautiful sort.

Vervaneana fl. pl. 3ft. rosy-lilac flowers, variegated foliage.

Vulgaris, 2ft. dbl. Alba, white; **Rosea**, rose; **Striped**; sep. mxd.

Our Special Mixture of Long-spurred Columbines, 5 cts.

Complete Special Mixture of all our choice Columbines, 5c.

Aquilegia Coerulea

Coerulea, 2ft. Rocky Mountain Columbine; sky blue with white corolla, one of our loveliest flowers.

Citrina, lemon yellow, long spurs. **Rose Queen**, rich rose, white corolla; **Double-flowered**, white, yellow and blue.

Erecta nana atrovioacea, 1ft. a choice double violet-blue sort.

Flabellata nana, 1ft. nodding pure white flowers; beds or pots.

Formosa, 2ft. large, double, blue flowers; nodding, graceful.

Glandulosa, 1ft. very large, nodding; lilac blue, white tips.

Haylodgensis, 2ft. long-spurred hybrids, mixed colors.

Helena, 2ft. large flowers, violet blue with snowy corolla.

Hybrida monstrosa, 2ft. compact plant of fine double flowers.

Vernalis, 2ft. early; semi-double flowers, some long-spurred.

ASTER alpinus 1ft. beautiful, large, free-blooming, mixed.

Alpinus Goliath, 2ft. largest flowers, soft blue; handsome.

Amellus, 2ft. a fine large aster, mostly blue and rose shades.

Cassubicus grandiflorus, 2ft. large lavender-blue flowers.

Diplostephioides, sub-coeruleus, 1ft. large, light blue; very beautiful; does well in pots as well as beds; a fine variety.

Complete Mixture of all varieties, 5 cents.

ASTER Perennial, 3ft. large-flowered; splendid branching

plants that bloom the first season, and continue to make

a fine display every autumn for several years; mixed, 5c.

Snowflake, a hardy aster with large, pure white single flowers

Horizantalis, 3ft. large flowers upon horizontal branches.

BAPTISIA australis, 4ft. azure, pea-like flowers in racemes.

BOCCONIA cordata, 8ft. Plume Poppy, big panicles of chamois

flowers; very large, heart-shaped 7-lobed leaves; handsome.

Microcarpa, 9ft. amber buds, buff flowers; tall and showy.

Thunbergii, 7ft. flesh-colored buds, coffee-colored flowers,

red-veined foliage; one of the handsomest of Boconias.

BUPHTHALMUM salicifolium, 2ft. composite, large yellow

heads, willow-like foliage; showy, hardy, ornamental per'n'l.

CATANANCHE coerulea, 3 ft. a fine perennial; flowers com-

posite, 2 inches across, borne on long stems; fine for cutting

and valuable as an everlasting; should be better known.

Bicolor, like *Coerulea*, but with pretty two-colored flowers.

CAMPANULA MEDIUM, Canterbury Bells

Complete Special Mixture of all Canterbury Bells, 5 cents.

The beauty of the Improved Canterbury Bell can hardly be excelled. The plants grow more than two feet high, are symmetrical, and become little pyramidal "trees" literally covered with the big exquisite bells, making a glorious display. The texture of the flowers is charming and the colors, white and blue and rose and purple, afford a display that surpasses many of the other garden beds. The plants are easily started and easily grown, and are always a source of extreme pleasure when in bloom. Do not forget them.

Canterbury Bell, Single-flowered, Pure White, Lilac, Deep Lilac, Rose, Rosy Carmine,

Striped, and light Blue; separate or in well-proportioned mixture, 5 cents.

Canterbury Bell, Double-flowered, Blue, Pure White, Lilac, Deep Lilac, Rose, Rosy

Carmine, Striated, Light Blue, Syringa Blue; separate or mixed, 5 cents.

Canterbury Bell, Cup and Saucer, (Calyceanthema) Blue, Pure White, Rose, Striped,

Rosy Carmine, Lilacina and Deep Lilac; separate or mixed, 5 cents.

Fraxox, early flowering, 3ft. Blue, White, Rose, Striped; separate or mixed, 5 cts.

Complete Special Mixture of all Single, Double, Cup and Saucer and Early-flowering Campanulas, 5 cents.

The beautiful Canterbury Bell

PERENNIAL CAMPANULAS, the beautiful Bellflowers

Complete Special Mixture of Perennial Campanulas, 5 cents.

The Canterbury Bells are biennials, the plants developing the first year and blooming the second, then dying. Once started, however, they will mostly renew the bed from self-sown seeds. But the following Campanulas or Bellflowers are hardy perennials, and will retain their place in the garden for years. Many of these are particularly desirable perennials.

Alharifolia, 2ft. white, rather broad bells with fringed edge.

Barbata, 1ft. tufted; azure, in loose racemes; rockery, June.

Carpatica, 1ft. large, open bells, vivid blue, long stems; fine.

Alba, like blue-flowered, but with pure white flowers. Both

Carpaticas are splendid plants for the rock garden; profuse.

Garganica, 6in. blue, open, drooping; fine for baskets; summer.

Grandis, 3ft. violet-blue, large, showy, broadly bell-shaped.

Latifolia alba, 2ft. large, funnel-shaped bells; free-bloom-beds

Maerantha, 3ft. blue, large flowers; fine for borders; also White.

Michauxioides, 5ft. azure, nodding flowers, showy in borders.

Mirabilis, 2ft. pyramidal; light blue, large bells; beautiful.

Persicifolia alba, 2ft. large, broad bells in racemes; splendid.

Coerulea grandiflora, 2ft. blue, very large, open bells; fine.

Fine Mixture of *Persicifolia Campanulas*, 5 cts.

Pyramidalis, Chimney Bell-flower, 5ft. charming lavender-

blue flowers, thickly set in a long erect raceme; fine for beds.

Alba, like the above but with white flowers; both splendid.

Compacta, 3ft. lovely blue; a splendid compact variety.

Alba, compact in habit like the blue; pure white flowers.

Fine Special Mixture of all the above *Pyramidalis*, 5 cts.

Rotundifolia, 1ft. deep blue bells, drooping; several to a stem.

Turbinata, 1ft. blue, open, large, showy; splendid for rockery.

Alba, a handsome white-flowered variety. Both splendid.

Campanula, Perennial sorts, mixed; Complete Mixture of all.

CARNATION, Hardy Garden

Complete Special Mixture of these fine Hardy Carnations, 5 cts.

THE HARDY CARNATIONS have been favorite flowers for centuries, and today they are as popular as ever. They have been greatly improved, the flowers now being mostly double, of large size and deliciously fragrant, being alike, desirable for garden or room decoration. The plants are easily grown from seeds, are hardy, and once established in a garden bed will last for several years. They show many fine colors.

CHABAUD, Perpetual Giant, the most desirable of Carnations, the flowers being of great size, fine form, rich and varied colors and deliciously fragrant. The seeds here offered are fine named varieties from a French specialist and are unsurpassed, the colors coming true from seeds, and giving 90 per cent of big double flowers. Pkt. 25 to 30 seeds, 5c.
Jeanne Dionis, pure snow white.
Reine Rose, cochineal carmine.
Marie Chabaud, sulphur yellow.
Magenta, vivid dark red.
La Perle, rosy mauve.
Reine Rose Pale, pale rosy lilac.

Complete Special Mixture of the above, Finest Quality, 25 to 30 seeds, 5c.

EARLIEST Dwarf Vienna, 14 in. high, flowers very double; Benary's Improved Strain, very superior; White, Rose and Violet colors in mixture, 5c.

GIANT Malmaison, very large, double, fragrant flowers; fine English and French seeds specially mixed, 5 cts.

GRENA DIN, 14 in. large, double, sweet-scented, scarlet fl's.

KING of the Blacks, double, fragrant; beautiful dark shades.

MONT Blanc, double, fragrant, pure white; fine for cutting.

★ **Fine Special Mixture of Grenadin Carnations**, 5 cts.

MARGARET, Benary's Improved, 18 in. large, very double and fragrant; very charming varieties in the following colors.

CEDRONELLA cana, 2 ft. a neat hardy evergreen mint; pretty, crimson, sweet-scented flowers in numerous spikes; showy.

CENTAUREA macrocephala, 3 ft. large, golden yellow heads.

Montana, 2 ft. superb, large corn-flower blue flowers; Spring.

CEPHAALARIA Alpina, 8 ft. scabiosa-like; lovely sulphur bloom.

Tartarica, 7 ft. rather coarse, but has showy yellow heads.

CERASTIUM Biebersteinii, 1 ft. silvery foliage; daisy-like white flowers, long stem. Makes a showy bed, and is fine for edges.

Tomentosum, 1 ft. white leaves and abundant flowers.

CHAMAEPSEUCE diacantha, 4 ft. deep lilac, spiny, striped foliage.

CHEIRANTHUS Allionii, 2 ft. bright orange-yellow, fine clusters.

CHELONE Coccinea, 4 ft. allied to Pentstemon; very slender

scarlet tubular flowers in abundance; a fine perennial.

CIRSIUM pulcherrimum, 3 ft. pretty thistle, large lilac fl's.

Velenowskyi, 3 ft. ornamental fl's; white changing to violet.

CLEMATIS corymbosa, 10 ft. flowers in corymbs; hardy perenn'l.

Crispa, 4 ft. a slender vine; flowers nodding; pale lilac; rare.

Flammula, 20 ft. a slender, robust vine; panicles of pretty

Hardy Garden Carnations

White, Dark Red, Rose, Scarlet, Violet, Pure Yellow, Yellow ground; separate or in splendid Special Mixture. This strain should not be confused with the Margaret Carnations offered by many seedsmen. There is nothing better.

HARDY BORDER Carnations and Proteas. A high class strain saved by a French specialist; plants compact, free blooming, hardy; flowers full-double, richly scented and embracing the most brilliant and distinct hues and tints.

white, fragrant flowers freely borne from July till Oct.

Integrifolia, 2 ft., not a vine; flowers lavender blue, nodding.

Jackmanii, 10 ft. big purple fl's; profuse; hardy but "miffy".

Paniculata, 20 ft. white, fragrant fl's in great profusion; fine.

Recta, 5 ft. not a vine; sweet white fl's in dense corymbs.

Virginiana, 20 ft. flowers white, fragrant, panicle; pretty.

Vitalba, 20 ft. fl. white, almond-scented; pretty robust vine.

Complete Special Mixture of Clematis, 5 cts.

CINERARIA Diamond, 1 ft. silvery foliage; yellow fl.; edging.

COLCHICUM autumnale, 1 ft. pretty rosy-lilac fl's. in autumn.

CONVOLVULUS altheoides, 5 ft. vine; fl. violet, 2 in. across, fine;

blooms continuously from June until October.

CORONILLA varia, 3 ft. fl's pink in dense umbels; support.

CRUCIANELLA tylosa, 1 ft. small pink tubular fl. in heads; fine

rock plant, blooms first season, but is a hardy lasting perenn'l.

COREOPSIS grandiflora, 5 ft. a fine, everblooming perennia

has long-stemmed golden flowers, showy in the garden,

and fine for cutting; rich and excellent for groups.

DELPHINIUM, the glorious Perennial Larkspur

Complete Special Mixture of Perennial Larkspurs, 5 cts.

These are among the finest of garden flowers. All are beautiful, free-blooming, and showy, the prevailing colors being exquisite rich shades of blue. They are, as a rule, easily grown, and last for years when once established. We offer the finest seeds obtainable. Separate or mixed, 5c.

Barlowii, 4 ft. large-flowered, navy blue.

Caucasicum, 5 ft. sky-blue, white center.

Elatum, large-fl. hybrids, 6 ft. finest mixed.

Large-fl. hybrids, light blue shades, charming,

Dark blue shades in splendid mixture.

Nanum, 4 ft. Benary's new semi-dwarf varieties, mixed.

Staphysagria, 2 ft. dark blue, white eye.

Truncatum, 5 ft. dark blue, showy flowers,

Zubii, 6 ft. fine yellow spikes; so on in fall,

Complete Splendid Mixture of all choice Delphiniums listed above. 5c. Do not omit these.

DIGITALIS, the charming Foxgloves

Complete Special Mixture of these fine Foxgloves, 5 cts.

Lutzi, 4 ft. new salmon-rose varieties; beautiful.

Ivory's Spotted, 4 ft. large bells, richly spotted.

Monstrosa, 3 ft. large, open fl. at top of truss,

Purplea, 4 ft. the common Foxglove, mixed.

★ **THE SHIRLEY**, considered the finest; 6 to 9 ft. tall, the stems thickly set with large drooping

glloxinia-like flowers in all the colors ranging from white to deep rose; magnificent. 5 cts.

NOTE—Foxgloves are fine hardy biennials bearing showy and graceful balls of various colors and exquisite

varieties. See engraving. The plants are easily grown from seeds, and are beautiful in pots or borders.

Often the display in the garden is kept up by voluntary seedlings. The new Shirley Foxglove developed by

Rev. Wilks is a great acquisition, the plants reaching the height of nine feet, under favorable conditions,

and displaying the lovely flowers in long, showy, erect racemes. Don't fail to try it.

Flower of Delphinium

Formosum, 2 ft. dark blue, large, beautiful,

Sibericum, 2 ft. blue shades, large flowers,

Speciosum, dark blue, sweet-scented flowers.

Complete Splendid Mixture of all choice Delphiniums listed above. 5c. Do not omit these.

The beautiful Foxgloves

HOLLYHOCK, Improved Double

Complete Special Mixture of Benary's and Vilmorin's choice Hollyhocks, 5 cts.

WE TAKE pleasure in offering the finest strain of Double Hollyhock, Chaters Improved. This fine strain, grown by Mr. Benary and called "Benary's Prize", is not surpassed, the flowers being very large, full-double, and richly fringed, while the colors are simply wonderful. We also have Vilmorin's Extra Fine Double Hollyhock, imported direct from the growers in Paris. Either of these splendid strains will please you. Get a mixed packet of each. Our mixtures are carefully prepared from our splendid varieties and will yield all the fine colors. Only 5 cts. a packet, separate or in well-proportioned mixture.

Benary's Prize: White, Sulphur, Golden Yellow, Rose, Scarlet, Crimson, White tinted rose, Cream, Peach, Apricot, Chamois, Dark Rose, Salmon-rose, Carmine, Light Red n yellow ground, Dark Salmon-red, and Purplish Violet. Complete Special Mixture of all Benary's Hollyhocks, 5 cts.

Moschata, but with large fl's; pretty rosy-purple color.

PAPAVER ORIENTALIS, Glorious Hybrids

Complete Special Mixture including Perry's New White Poppy, 5 cts.

AMONG THE most attractive of all Perennials are the Oriental Poppies. The flowers are larger and more showy than Darwin Tulips, show many rich colors from white to intense crimson as well as salmon and orange shades. Once started, a bed of them will last for years, and never fail to display their big brilliant waving flowers every summer. The foliage is almost as handsome as the coarser Ferns, and the many flower stems are strong, and hold their showy flowers three feet above the graceful foliage. The plants are easily started from seeds, and our seeds were saved by a skillful English florist. The rare varieties in rosy salmon and white are included in our special mixture. Be sure to add this glorious perennial to your order.

Mrs. Perry, 3 ft. orange-apricot, rare and handsome.

Queen Alexandra 3 ft. rosy-salmon with crimson spots

Royal Scarlet. 3 ft. gigantic scarlet flowers

Benary's Finest German Mixed Hybrids, 5 cts.

Plant of Viola odorata

CHOICE SEEDS for the WINDOW GARDEN

We offer a fine collection of seeds for the Window Garden. It is hardly necessary to tell you that there is much pleasure as well as economy in growing your window plants from seeds. To watch and tend the little seedlings until they become blooming plants is always interesting, and they are more appreciated because of the personal care given them. So we urge our friends to sow liberally of these seeds in pots or protected beds. We especially recommend our seeds of *Calceolaria*, *Cineraria*, *Carnation*, *Cyclamen*, *Geranium*, *Heliotrope*, *Lantana*, *Primrose*, *Solanum*, *Stock*, *Thunbergia*, *Verbena* and *Wallflower*. These all do well in pots and bloom abundantly in a sunny window in summer or winter. All are easily raised from the dependable seeds we supply. We feel sure you will be delighted with the results obtained from our Window Garden seeds. Only 5 cts. a pkt.

ABRUS praeatorius, 15ft. Vine, Prayer Bean, as the seeds are used to make rosaries, being shining scarlet, very pretty; lovely foliage and handsome clusters of purple fls; also called weather plant, because its leaves indicate the future condition of the weather.

ABUTILON, Benary's Giant, 4ft. huge, bell shaped fls in fine shades. Seedlings bloom within 6 months.

Hibiscus-flowered, large hibiscus-like fls of various shades; fine for pots; a splendid variety.

New Hybrids, from a fine collection of the best varieties.

Complete special mixture of all the above Abutilons, 5 cts.

Note. The Abutilons are elegant window-garden shrubs bearing graceful, bell-shaped, red, yellow and white fls. They grow 4 ft. high. Branch freely and bloom abundantly and continuously. Easily grown.

ACACIA Arabica, 15ft. the source of Gum Arabic.

good for beds.

Complete special mixture of Gracilis

and Semperflorens, 5 cts.

Rex, finest of Begonias, from Benary's

rich collection, 5 cts.

Note. All of the Fibrous-rooted Begonias

we offer are especially

handsome in plant and flower, and all

are practically ever-blooming.

All are easily grown from seeds, and the

Gracilis varieties are particularly

valuable for winter-blooming in the

window. Cultural directions come with

the seeds. Tuberous-rooted Begonias

bloom in summer, and our seeds are the

best obtainable, coming from Begonia

specialists. Plants of both classes begin

to bloom in autumn from spring sowing.

Graceful Abutilon blooms

We have the best quality of Tuberous Begonia seeds that can be obtained. Kelway's of England make a specialty of these Begonias, and pride themselves in their collection. Their "Perfect Model" in both Single and Double, cannot be excelled, and their seeds are new and carefully saved. We cannot too highly recommend them.

Kelway's Perfect Model, Single, largest fls; best colors mixed.

Kelway's Perfect Model, Double, largest fls; best colors mixed.

Chrysanth, Single, yellow, lovely salmon-rose center.

Special mixture of Single and Double tuberous-rooted, 5 cts.

Calceolaria, Kelway's Perfect Model, without

exception the finest strain

of Large-flowered Calceo-

larias in existence. The

plants are of perfect habit,

neither too tall nor too

dwarf; the big flowers are

well-rounded, of the most

excellent colors and mark-

ings, and come in huge

clusters. You'll marvel at

the surpassing beauty of

these glorious pot plants.

A window-full in bloom Calceolaria, Kelway's Perfect Model,

will be a source of untold pleasure. Easily grown. Cultural

directions come with the seeds. Finest mixture, 5 cts. Also

Grandiflora Tigrina, 1ft. most beautiful, from Benary; mixed.

Pumila compacta, Benary's Dwarf, tigré and selfs.

Olymp, a golden yellow, blotched brown; very showy.

Striata, new, striped; rare and beautiful.

Clibrari, Profusa, 2ft. small canary fls; very free-blooming.

Complete special mixture of Calceolarias, 5 cts.

CAMELLIA Japonica, double, Japanese Rose, charming shrub.

CENTROSE MA grandiflora, 6ft. pea-like vine, violet flowers.

Cineraria grandiflora. The most showy and

beautiful of window plants; nothing in a plant window is so

attractive, the flowers being large, exceedingly bright in color,

and produced in elegant clusters, as indicated in the engraving.

Kelway's Perfect Model, the finest of all Cinerarias;

just right in form for

pot culture, and bearing

in huge clusters, glorious

flowers in size, color and

striking variegations. Sur-

passes all other window

plants in rich display.

Easily grown: fine mixed.

Kelway's Pure White, also

Kelway's Sky Blue.

Kelway's grand. Cineraria, Double, Perfect

Model, mixed.

Stella, Kelway's Choicest Dwarf, fls

cactus-shaped, and many

showing a distinct white edge or

center: a fine one.

Stellata, tall, fls star-shaped, rich

colors: fine to grow.

French Cinerarias. Vilmorins of Paris

have developed an extraordinary

strain of Cinerarias, and we are

pleased to offer Royal Blue, Antique Rose

Striped, White, Glowing Scarlet,

Crimson, etc. Cinerarias are easily

grown. The seeds start quickly, and

the plants thrive in any good soil. It is

necessary to sprinkle lightly with

tobacco stems or dust over the bed

after sowing, to ward off ants.

CYCLAMEN Persicum Giganteum

Finest Known Strain, direct from France. Complete Special Mixture, 5 cts.

THE little engraving shows a plant of the beautiful, easily-grown CYCLAMEN Persicum, and I offer seeds of the finest known strain, grown by a French specialist. Seedling plants appear in a month after the seeds are sown, and begin to bloom in from 15 to 18 months, keeping up the display all winter. As a rule every seed will produce a fine plant, and a windowful of the different colors is a glorious sight. The leaves are often as beautifully blotched and veined as a choice foliage plant. I have all the fine colors, and offer them either separate or in complete mixture at 5 cts. a pkt. containing 8 seeds. **Bright Rose**, charming; **Pure White**, green leaved; **White with carmine center**; **Salmon-rose**, new, fine color; **Carmine Red**, very showy; **Brilliant Rose** with splendid red eye; **Blood Red**, beautiful. **Grandiflorum**, mixed colors; **Papilio**, fringed fls. mixed.

NOTE. Cyclamen Persicum is the finest of the many species. C. Persicum Giganteum bears the largest and finest flowers, and has the best marked foliage. Try this plant for your window.

Cyclamen Persicum Giganteum

BIGNONIA Tweediana, vine from Buenos Ayres, gold yellow.

CARNATION, for winter-blooming in pots in the window; 1ft. The plants stool out into clumps, and bear an abundance of large, very double, richly scented flowers of the most charming colors. White, Rose, Crimson, Scarlet, Yellow; sep. or mixed. Start the seeds in spring for winter-blooming.

Picotee, 1ft. double fragrant fls. with distinct edge.

Perpetual or tree, 1ft. continuous-blooming, double, hardy.

CALLA Ethiopica Devoniensis, White Calla, fine house plant.

CAPSICUM, (Pepper), excellent pot plants. See page 8.

CASSIA floribunda, 2ft. annual, free-blooming, golden yellow.

CHEIRANTHUS Kewensis, 2ft. sulphur passing into golden and violet; blooms from Nov. till spring.

CHRYSANTHEMUM, 2ft. C. de Chambord, White Paris Daisy.

Indicum fl. pl. double, early-flowering; splendid; fine mixed.

Japonicum fl. pl. finest double Japan sorts, mixed.

Uliginosum, 6ft. branched, with white flowers in profusion, resembling a huge hardy Aster plant; handsome.

CLIANTHUS puniceus, 5ft. brilliant red with white spots.

Dampieri, 2ft. dark red and black, splendid.

CLITORIA ternatea, 6ft. pretty Pea-like vine; rich blue.

COLEUS; Kelway's Unique, new hybrids with elegant

twisted leaves embossed toward the margin with green and golden yellow upon white ground; fine.

Pyrenean Giant, elegant giant sorts in fine mixture; large and fine.

Striped Empel, lacinated leaves striped with green, white, yellow and brown; from Vilmorin.

Benary's Exhibition, extra, the finest of Coleus; saved from Benary's superb collection; great

range of colors. Try this splendid strain this season.

Benary's Large-leaved, richly variegated, splendid, 5 cts.

Complete Special mixture of all the above sorts, 5 cts.

COMMELINA Sellowiana, 18in. large cobalt-blue flowers.

CONVOLVULUS Mauritanicus, trailer, fine blue, for baskets.

Aureus superbus, lovely vine, golden flowers.

CUPHEA platycarpa, Cigar Plant, 1ft. fine pot and border plant; free-blooming and ever-blooming; fls. rich scarlet.

DASYLIRION longifolium, 5ft. a magnificent pot plant.

DOLICHOS ligustris, 6ft. Australian Pea Vine; purple fls.

DRACAENA, pretty sub-tropical pot plants; fine mixed, 5 cts.

EPACRIS hybrida, 3ft. winter-blooming, fine; best seed mixt.

ERIANTHUS Ravennae, 5ft. a handsome hardy grass.

ERYTHRINA crista-galli, 3ft. scarlet flowers in racemes.

EUCALYPTUS globulus, a beautiful semi-tropical tree.

Citridora, 3ft. very fragrant foliage, fine for pots.

Resinifera, Red Gum, extremely hardy, handsome.

Complete Special mixture of all the above sorts, 5 cts.

EUPATORIUM grandiflorum, 2ft. large white, winter-bloom.

FRANCOA ramosa, 2ft. Brit. Wreath; elegant white fls.

FREESIA hybrida, 1ft. sweet-scented, bloom in 6 mo. mixed.

FUCHSIA, fine pot and border plants, Hybrids are best.

Boliviana, 1ft. scarlet racemes.

Coccinea, 2ft. scarlet, hardy.

Procumbens, droops; baskets.

Fulgens, 2ft. Goselli, scarlet.

Above Fuchsias in complete mixture. 5 cts.

GAZANIA longiscapa, 8in. extremely free-blooming annual; fls. 2in. across, lovely golden yellow with white spotted zone and chocolate ring; of easiest culture.

GERBERA Jamesonii, 2ft. deep scarlet African Daisy.

Hybrida, superb varieties for pots; mixed colors.

GESNERIA hybrida, 2ft. scarlet, etc. mixed; seeds small.

GLOXINIA hybrida, 1ft. fine summer-blooming tuberous

pot plants; fls. large, rich-colored and showy. We offer the finest French and German strains, and include cultural notes.

Crassifolia, large-flowered extra fine, mixed.

Valleranda, Spotted, Margined and stained; superb varieties mixed.

Vilmorin's, Splendid Mixture, very superior.

French Hybrida, unsurpassed strain, fine mixt.

Gloxinia hybrida in fine Complete Mixture, 5 cts.

Dear Mr. Park: From the Gloxinia seed packet I got from you, I raised 88 nice plants, and I wish you could see them now, full of buds, ready to open. I also have Cyclamen and Cineraria plants from your seeds. You'll hear from me next year, Alice E. Dodd, Condersport, Pa.

HEDYCHUM Gardnerianum, 4ft. an easily-grown (hardy

South) pot plant that likes moisture; fls. lemon and white, very sweet scented and beautiful; is about as hardy as

Canna, and requires same treatment.

HELIOTROPE, 2ft. easily-grown; free-blooming plants for pots or beds; fls. small, in big clusters, and deliciously scented; colors range from white to dark royal purple.

White Lady, pure white; **Queen Marguerite**, large dark blue; **Peruviana**, light blue; **Roi des noirs**, large dark violet; **Louise Deleaux**, giant fl'wd. rose; **Triumph de Liege**, large, dark lilac; **Mme. Bruant**, large, dark lilac, superb; sep. or mixed.

Cyclope, 1ft. dwarf, robust, regular growth, with big umbels of large fls. of the prettiest shades, 5 cts.

Lemoine's Giant, Mixed, large fl'wd. and large-clustered.

Complete Mixture of all varieties of Heliotrope, 5 cts.

HIBISCUS Manihot Sunset, 4ft. splendid; the fls. clustered at the tips of the branches, are 6in. across, yellow with showy dark centers; grown as a pot plant or in the garden.

HIBISCUS, shrubby plants with Hollyhock-like fls. See p. 25.

IMPATIENS, beautiful everblooming African Balsams; splendid, easily-grown window plants. See page 12.

Holsti, New Hybrids, 2ft. beautiful pot plants; mixed colors.

Sultani, King Albert, 18in. brilliant Tyrian rose.

Balfouri, 2ft. orchid-flwd; rare and very handsome.

NOTE. Balfouri is one of the most beautiful plants for the window or for a partially shaded bed out-doors. It forms a tree-like plant covered with flowers of exquisite texture, each showing white and rich carmine colors. The seeds are sometimes tardy in starting.

IPOMOEA, splendid kinds on p. 21.

JACARANDA mimosifolia, 5 ft. ferny foliage, blue clusters.

KALANCHOE Kewensis, 3ft. scarlet; fine to cut.

KENNEDYA comptoniana, vine, blue, very beautiful.

Bimaculata, azure, white spots.

Kennedy in splendid mixture.

LAVATERA arborea variegata, 5ft. an easily-grown pot plant. The older the plant the richer the green and yellow variegation.

LAVATERA, 5ft. an easily-grown pot plant. The older the plant the richer the green and yellow variegation.

LAVATERA, 5ft. an easily-grown pot plant. The older the plant the richer the green and yellow variegation.

Procumbens, droops; baskets.

Fulgens, 2ft. Goselli, scarlet.

Above Fuchsias in complete mixture. 5 cts.

GAZANIA longiscapa, 8in. extremely free-blooming annual; fls. 2in. across, lovely golden yellow with white spotted zone and chocolate ring; of easiest culture.

Lavatera Arborea Variegata

LANTANA, Improved Large-flowered

Complete Special Mixture of all colors, 5 cts.

ONE of the good things for summer-blooming North and South is Lantana, especially in its improved varieties. The plants thrive in the hot sun, and bloom abundantly whether the weather is wet or dry. The flowers come in fine clusters, not unlike those of Verbena, and keep up a continuous display throughout the season, the colors being rich and distinct — white and yellow and rose and red in many shades. Each seed contains several germs, and will mostly produce more than one plant. The new Dwarf race is excellent for beds and also thrives in pots. Chip the seeds or soak them in warm water for 24 hours to promote prompt germination. We offer the best seeds or nutlets. Started early the plants bloom freely the first season, and are not difficult to keep over winter.

Choice New Hybrids, 30in. very fine colors mx. **Alba grandiflora**, large-fl'd white, beautiful. **Roides Rouges**, deep red or scarlet; showy. **Nana Compacta**, 1ft. fine for pots and beds; mx.

Complete Special Mixture of all varieties of Lantana, 5 cts.

Lantana for pots or beds

LISIANTHUS Russelianus, 2ft. large deep purple flowers. **LINARIA**, Kenilworth Ivy, trailer; a hardy perennial, fine for baskets and rock-work; thrives in a dense shade and is of easy culture; flowers lilac. **Compacta alba**, white; **Globosa**, globular, 6in. See page 12.

MANDEVILLEA Suaveolens, a robust shrubby vine, almost hardy, bearing freely large, very fragrant fls; beautiful.

MEDOEOLA Asparagoides, Smilax Vine, a near relative of Asparagus, with very handsome shining foliage; pretty on a pot trellis and fine to cut. A desirable house plant. See eng. Myrtifolia, "Baby" Smilax, small in leaf and vine.

MELANTHUS major, 7ft. Honey Flower, pretty foliage.

MIMOSA pudica, 2ft. Sensitive Plant, lovely foliage and pink flowers; a good pot plant and fine winter-bloomer. See eng.

Saxifraga, Tree Sensitive Plant; shrubby kind.

MIMULUS Tigrinus, 1ft. Queen's Prize, a very beautiful pot plant; likes moist, sandy soil and partial shade; exquisite large flowers of charming colors. See engraving.

Moschatum, 6in. Musk Plant, fls yellow dotted brown.

MUSA Ensete, 5ft. Banana Plant, showy tropical foliage.

NERIUM Oleander, 10ft. lovely flowering shrub; mixed colors.

PELARGONIUM, Fancy and Spotted, large flowers richly marked; called Pansy Geranium. Pkt. contains 3 seeds.

Olivar Blotched, large, blotched, handsome, 3 seeds per pkt.

Grandiflorum, large flowered, mixed, 3 seeds per pkt.

Hederifolium, Single Ivy-leaved, mixed, 3 seeds per pkt.

Double Ivy-leaved, seeds scarce, 3 seeds per pkt.

Coloratissimum, Apple-scented, fine.

Zonale, Geranium, fine mixed, 15 seeds.

Extra Choice Mixed, seeds scarce, 8 seeds.

Double, newest large-flowered, finest mixed, 7 seeds.

Silver-leaf, scarlet, with white variegated leaves, 3 seeds.

Gold and Bronze-leaved, variegated, 3 seeds per pkt.

Note. We especially recommend our seeds of Zonale Geranium; they will produce fine plants and handsome clusters of bloom. The plants are easily started from seeds.

NICOTIANA glauca, 9ft. glaucous foliage, yellow flowers.

OXALIS floribunda, 9in. White; also Rose, sep. or mixed.

PASSIFLORA alba, vine, flowers large, magnificent.

Coerulea, exquisite blue, hardy South; very handsome.

Edulis, blue and white; fruits edible; splendid.

Gracilis, neat graceful plant; flowers white striped blue.

Superb special mixture of all the above, 5 cts.

Mimulus, Queen's Prize

Mimosa pudica

Medeola, Smilax

PETUNIAS. These are among the most useful of flowers for pots or beds. They bloom freely all summer, defying all kinds of weather, and the flowers are charming in color, very showy, revel in any situation, and make the evening air redolent with perfume. If started in mid-summer the plants also brighten the sunny plant window the entire winter. We especially recommend the following choice dwarf Petunias for pots and beds:

Rose of Heaven, 1ft. fiery rose, fine for both pots and beds; one of the most beautiful and desirable of Petunias.

Snowball, 1ft. pure white, showing a wealth of lovely bloom.

Norma, 1ft. distinct rich blue with central white star.

Erfordia, 1ft. dense, profuse, lovely rose, white throat.

Inimitable, 1ft. a choice mixture of finest spotted sorts.

Complete Special Mixture of the above, 5 cts. See also p. 15.

PHYSIANTHUS albens, vine, white, red-tinged flowers.

PITTOSPORUM undulatum, 6ft. evergreen; white, fragrant flowers in clusters; defies a salt-spray.

POINSETTIA pulcherrima, 3ft. the beautiful popular scarlet Christmas flower. Seedlings started in Spring bloom the next Christmas.

POINCIANA Gillesii, 3ft. a glorious-blooming pot plant.

Pulcherrima, 3ft. flowers orange, (Flower Fence).

PRIMULA Obconica, Benary's Giant Strain

Complete Special Mixture, 5 cts.

PPRIMULA OBCONICA has been greatly improved since it was introduced from central China some years ago. The plants are now free-blooming, and the flowers so large and full and varied in color that they rival the best of the old Chinese varieties. A windowful of these Primroses in bloom is a glorious spectacle, and never fails to elicit enthusiastic admiration and praise. The plants are as easily grown and cared for as those of Primula Sinensis, and afford just as much pleasure and satisfaction. We offer a very superior strain of seeds, and send cultural directions with them, which will insure success. See eng.

GIGANTEA, 1ft. Lilac.

Fermesina, crimson.

Salmon Queen, new

Pure White, fine.

Apple Blossom, pink.

Lilacina, deep lilac.

Sanguinea, deep red.

Hamburgia, deep rose.

Coerulea, fine blue.

Rosea, superb rose.

Fire Queen, fire red.

Fringed Giant, Mixed.

Complete Special Mixture of Benary's Giant Strain Primula Obconica, 5c.

NOTE. When in Germany at Mr Benary's establishment I was being shown through the greenhouses when a door was opened into a long house of Primroses, each plant bearing many graceful clusters of exquisite big flowers of various fine colors, as large as those of the Chinese Primrose. I did not recognize Primula Obconica in this giant form, and when informed that the plants were of Benary's Improved Giant-flowered Obconica I was amazed and at once became enthralled over its beauty. I am pleased indeed to offer our friends seeds of these grand Primula Obconica direct from Mr. Benary, saved in his greenhouses from his splendid collection of improved varieties, and sown in the seeds in the separate colors or in mixture. These Primroses cannot be too highly praised. They are more easily grown than Chinese Primroses, and will yield unbounded satisfaction. Be sure to order some of these fine Primroses. Geo. W. Park.

Primula Obconica in bloom

CHINESE PRIMROSE, Giant Fringed

Complete Special Mixture, 5 cts.

We all agree that the Primroses are the most desirable of all plants for general window culture. They start readily from seeds, come into bloom in a few months, and are sure to bloom freely in the window in winter. Some window gardeners make them a specialty and have a glorious window display of them when all without is bleak and bare and frigid. The Chinese Primrose (see eng.), is simply indescribable in foliage and flowers, and we are delighted to offer seeds of the finest known strain. They are positively unexcelled in quality, and will yield for you the very best results. Full cultural directions are sent with the seeds.

Lady Randolph Churchill, pure white. **Marquis of Lorne**, rose, charming. **Blue**, lovely flowers, green foliage. **Pale Pink**, an exquisite color. **Crimson**, a rich color of Vilmorin's. **Glittering Red**, rich and beautiful. **Emperor**, splendid copper color. **Soleil d'Empel**, pure white, gold eye. **Reddish Magenta**, new, fine. **Suave** special mixture of all colors.

NOTE. I do not know where nor how to get better seeds of Chinese Primrose than what we offer above. Our seeds were all saved by a French Primrose Specialist from his best giant-flowered plants, and from the finest brightest colors. They cannot but delight those who grow them. We challenge comparison with any other strain, as we think we have absolutely the best Primroses that can be produced. Only 5 cents for a packet of 15 seeds. The seeds germinate in about three weeks. Geo. W. Park.

Fringed Chinese Primrose

Other Choice Fringed Chinese Primroses

Complete Special Mixture, 5 cents.

Filicifolia, Fern-leaved, **White**, **Crimson**, and **Lilac** with **white margin**; separate or in mixture, 5 cents.

Macrophylla (Fernleaved) **Gigantea**, the magnificent large-flowered class, in all fine colors mixed. Unsurpassed strain.

Alba **Magnifica**, very large white flowers, yellow eye.

Coeur de Lion, magnificent light blue.

Duchess Hybrids, various rich colors with dark center.

Striata, white striped carmine-mauve.

Morganote, beautiful flesh color; rare.

Sedina, brilliant dazzling red; fine.

Defiance, carmine red with brown eye.

Coccinea, rich scarlet, handsomely fringed.

The Duchess, white with big bright carmine center.

Above Choice Chinese Primroses mixed, 5 cents.

Finest Star Chinese Primroses

Complete Special Mixture, 5 cents.

These are splendid winter-blooming Primroses of easier

PRIMULA Floribunda grandiflora, 1 ft. an improved variety bearing beautiful yellow flowers, an excellent winter-bloomer, rare, showy, and keeping in bloom for a long period. Easily grown from seeds. 5 cents.

Forbesi, 1 ft. Baby Primrose, a lovely little Primrose, blooming in three months after sowing; free-blooming, graceful, beautiful; lilac flowers in abundant clusters.

Kewensis, 1 ft. a new hybrid; splendid foliage and large golden yellow flowers; a choice winter-bloomer.

Malacoides, 1 ft. an enlarged Forbesi, blooms in four months; lilac flowers in large clusters; blooms in summer and winter.

REHMANNIA angulata, 2 ft. large, free-blooming; rose shades with rich yellow throat spotted purple; half-hardy perennial.

RHODOCHITON volubile, vine, purple-rose flowers with dark crimson corolla; free-blooming, showy.

RHYNCHOSPERMUM Jasminoides, variegated foliage.

RIVINA humilis, 2 ft. white flowers and showy scarlet berries.

ROCHEA falcata, fine succulent; beautiful scarlet flowers.

SAINTPAULIA ionantha grandiflora, 4 in. Usambara Violet; deep blue, long-blooming; seeds very small.

SANTOLINA tenetosa, 1 ft. silvery foliage; yellow flowers.

SALVIA patens, 3 ft. exquisite navy-blue flowers.

SAXIFRAGA sarmentosa, 1 ft. very fine for baskets.

SOLANUM cavastrum, 2 ft. small red fruits; for pots.

Pseuolapiscum, 3 ft. Jerusalem Cherry; for pots.

Seafortianum, a lovely blooming vine; blue clusters.

STATIC macrophylla, 2 ft. dark blue; fine for pots.

STEPHANOPHYSUM longifolium, 2 ft. scarlet; long-blooming.

STREPTOSOLEN Jamesoni, 4 ft. orange flowers in clusters.

STEPHANOTIS floribunda, vine, large, white, sweet flowers.

STREPTOCARPUS, Cape Primrose, 1 ft. various hybrids mixt.

SUTHERLANDIA frutescens, 3 ft. scarlet flowers in racemes.

SWAINSONIA, 3 ft. Pea-like racemes, profuse; mixed sorts.

TACSONIA Exoniensis, a lovely vine; red flowers.

TECOMA Smithii, 6 in. yellow, free and winter-blooming.

TETRAHEMA, Mexican Foxglove, 1 ft. not plant; blue bells.

THEA Sinensis, 6 ft. Tea bearing; white, fragrant

culture than the Fringed varieties. The flowers are plain, of many fine colors, and borne in handsome umbels. If you have never grown Primroses from seeds these are recommended. Some people prefer them to the highly developed kinds.

Snow Star, snow white.

White Queen, large, fine.

Light Blue, lovely.

Dark Blue, splendid.

Duchess Star, white, red eye.

These fine varieties separate 5 cts. or all mixed 5 cts.

Double Chinese Primroses

Complete Special Mixture, 5 cents.

The Double Chinese Primroses are slow and beautiful pot plants for the window in winter, and we offer choice seeds saved by Kelway that can be depended upon for splendid flowers. We have the following colors: **Pure White**, **Striped**, **Pale Pink**, **Bright Red**; and **Kelways Mixed**. Separate or mixed, 5 cents per packet of 15 seeds.

TROPAEOLUM Speciosum, vine, scarlet, splendid.

Minus, 1 ft. small orange flowers tinged red; for pots.

Coccineus, small scarlet flowers; pretty pot plant.

TYDAEA Grandiflora, Gesneraceae, from a splendid collection.

VERBENA Citriflora, Lemon Verbena, very sweet foliage.

Veronica, lovely fls of various colors in terminal spikes.

The Best Wallflowers

Wallflowers are beautiful plants suitable for the garden in a mild climate, or for pots at the severe north. The flowers are large, rich in color and delightfully fragrant, borne in big upright racemes, and very showy. Easily grown from seeds. We offer the finest varieties as follows:

Eastern Queen, clear chamois.

Feltham Early, red-brown.

Golden Monarch, large, golden.

Complete Special Mixture of all these fine Wallflowers, 5 cts.

We also offer the following **Window Garden Seeds**:

Achimenes, finest mixed.

Agave Americana, Century pl.

Ferns mixed for the window.

Genista monosperma, white.

Canariensis, yellow, profuse.

Gloxinia Imperialis, Sinningia.

Indigofera tinctoria, As pink.

Isoloma multiflorum, mixed.

Lagereria rosea, vine, waxy fl.

Mackaya bella, lilac bell fls.

Palms: **Brabea filarctica**, **Pritchardia filamentosa**, **Lantana Canbionica**, **Chamaerops** elegant large-fl. **Emperor mx.**, **excelsa**, **Phoenix canariensis**, **Washingtonia**; sep. or mixed.

CACTUSES in Variety

Ariocarpus fissuratus, **Echinocereus Polyrrhus**, **Micromeris**.

Cereus Alacirportanus, **Stramineus major**, **Urechinata**.

Jamaica, **Above kinds mixed**, **Above kinds mixed**.

Above kinds mixed, **Echinus**, **New large-flwd mixed**.

Echinocereus chloranth, **Heyderi var. appl.**, **Complete mixture 5 c.**

A PAGE OF GOOD THINS.

An Everblooming Bedding Plant.

One of the good plants of easy culture that blooms freely from early summer till cold weather is *Ageratum*, and the improved compact form of *Ageratum Imperialis* is all that could be desired for a handsome showy bed, or for a border to a bed of taller plants. It grows six to eight inches high bearing a mass of big blue clusters, thus forming a sheet of exquisite color throughout the season. There is a white-flowered variety that is excellent for borders. Both are easily grown from seeds which can be started in a box or hotbed for early plants, or in the garden for later blooming. Per packet of about 300 seeds either color, 5 cts.

A Beautiful Aster.

A beautiful big Single-flowered Aster that has become very popular in England for a large showy bed and also for cutting for house decoration is *Southcot Beauty*. The flowers are like an immense Ostrich-feather Aster, the petals long and fluffy, and the golden center small. They come in many different bright colors, and for a big showy autumn bed they can hardly be surpassed. The most attractive of the varieties is *Scarlet*, and this color I can supply in packets of 200 seeds at 5 cts. The plants grow two feet high, branch freely, and bear the flowers on long stems in great profusion. Set 8 in. apart. They remain a long time in bloom, and a bed of them makes a glorious display. The bed can be edged with the *New Mauve Beauty*, the "loveliest color of which the Aster is capable". *Scarlet* also *Mauve* or all colors mixed 5 cts.

For a Showy Constant Bed

If you want a showy bed that will keep bright from early summer till destroyed by frost get a packet of *Coxcomb*

named *Glasgow's Prize*. The plants grow about 8 in. high, each plant forming an immense crimson comb. The combs are formed as soon as the plants are a few inches high, and continue to grow and enlarge until twelve inches broad. The massive green foliage covers the bed and makes a rich background for the big crimson combs. The bed can be bordered with *Sweet Alyssum*, which is constantly in bloom. Packets of 60 seeds 5 cts.

Dr. Badgers Hybrid Schizanthus

Among the many good things offered without description in this Flower Book is *Dr. Badgers Large-flowered Schizanthus*. I am pleased to offer this splendid strain of *Schizanthus*. It was developed by *Dr. Badger* from the already improved hybrids of *S. grandiflorus maximus*, and is extraordinary, being a foot high, of compact pyramidal habit, and bearing a profusion of large flowers in many bright, varied and beautiful colors. Grown in masses the plants make a fine display in beds, and in pots they rival the more delicate *Wisetonensis*. Their surpassing beauty and the ease with which they may be grown recommends this *Schizanthus* to all who want a chaste, handsome and easily managed annual either for beds or pots. 100 seeds 5 cts.

★ Right here I would call your attention to *New Dwarf Hybrids* of *Schizanthus grandiflorus*, dwarf and compact, showing lovely red shades; charming in an out-door bed. Price 5 cts. Also I can supply seeds of *Benary's improved strain* of *S. Wisetonensis*—superb long and profuse-blooming hybrids in many splendid shades, excellent pot and market plants, the seeds gathered from carefully selected pot-grown plants. 5 cts.

A Glorious Orange Flower.

Cheiranthus Allioni is perhaps the most attractive of orange-colored flowers for beds or groups. Plants are readily grown from seeds, and if started early will bloom freely throughout summer and autumn, making a blaze of rich orange

color that cannot be equalled by any other flower. The plants grow 15 inches high, branching and covering the bed when set 5 inches apart. If sown in September in protected beds and transplanted in early Spring the plants will make a fine display

throughout the season. The flowers come in fine clusters at tips of the branches, and can be used for cutting if desired. A lovely companion for this is *Cheiranthus linifolius*, which bears lilac-mauve flowers, grows a foot high, and can be used as a border. It is treated the same way, 40 seeds of either, 5 cts. I particularly recommend these flowers. They are rare, and have a striking appearance when grouped together.

A Few Helpful Suggestions.

MY Friends, in such an extended list of flower seeds as you find in this Flower Book it is sometimes perplexing to know just what you should order to get the most satisfactory results. For this reason I shall here give a few suggestions that I think may be helpful.

Alyssum Sweet. We all concede this as one of the most beautiful and useful of hardy annuals, and

I am pleased to offer the following new varieties:

Little Dorrit, 4in., snow white, compact, for beds.

Lilac Queen, 5in. pale lilac, upright, dense.

Primrose Queen, 4in. primrose-hue, upright spikes.

Minimum, 2in., white, trails, carpets the ground.

Anemone, St. Bridgid, The Lily of the Field, improved; large Poppy-like flowers of many colors and lovely variegations. Plants started in April bloom during fall; and in a mild climate during winter. I offer the best strain showing brightest colors.

Antirrhinums. My strain of these is unsurpassed. All bear giant flowers, and I offer also Benary's Double-flowered and Smith's Picturatum, both rare and beautiful. See page 5.

Aster. Kelways New Development, Giant Branching, Decoration and Gargantuan Asters are all surpassingly beautiful. The New Decoration is the last word in Improved Double Asters. All are of huge size, perfect form and double to the centre. Glorious in beds and fine for cutting.

Amberboa Muricata. This is a rare hardy annual sometimes called "Fairy Sweet Sultan". It grows 18in. high, and produces a wealth of lovely blooms on wiry stems, showy in a bed and excellent as cut flowers. The plants are very graceful, bloom for a long period and never fail to call forth expressions of admiration and praise. One of the good annuals that is worthy of general cultivation. The colors are Lavender and Rose, and I can supply both either separate or mixed, pkt. of 40 seeds 5c.

Calendula, Ball's Orange, full double, rich orange, the finest of Pot Marigolds. Plants start readily, will grow in any soil or situation, begin to bloom early, and continue till after frost, rivaling Chrysanthemums. Showy in a bed, fine for cutting; has no enemies, a child can grow it. Fine pot plant for winter-blooming. I offer a first-class strain. See also page 8, packet of 50 seeds, 5cts.

Candytuft, Giant Hyacinth-flowered, the largest, most showy and most popular of Candytufts, a hardy annual a foot high, bearing big clusters of pure white flowers forming a sheet of color in a bed. Sow either in early spring or in a mild climate in autumn. One of the good things that should be in all gardens. Sow where plants are to bloom and thin to 6in. apart, pkt. of 150 seeds, 5cts.

Carnation, Earliest French Chabaud, Vilmorin's Prize Strain, grown in France. This is the finest of all "Annual" Carnations. The plants are vigorous and bloom in four months from seeds, each plant stooling out and throwing up many stems and showing a mass of huge double flowers, rich and varied in color and making the air redolent with delicious perfume. The plants are hardy, and will do service for several years if the flowers are freely cut; packet of 25 seeds 5cts.

Centaurea Cyanus. Showy, free-blooming hardy annuals, excellent in borders, and unsurpassed for cutting, the flowers last for days. Popularly known as Corn Flowers or Bachelor Buttons. I offer all the fine colors. Emperor William Double is one of the most exquisite of blue flowers, and a popular florists flower. You will not regret planting a bed of this flower to have quantities for cutting.

Centaurea Imperialis. These are known as Royal Sweet Sultans. The flowers are much larger than the old-fashioned, and come in a great variety of colors. Easily raised from seeds, and the long-keeping, fringed, sweet-scented flowers in many rich colors are fine for cutting, see pg. 8, pkt 40 seeds 5c.

Chrysanthemums. The Annual Chrysanthemums are splendid garden flowers of easy culture, both single and double. I offer the best kinds, and ask you to turn to page 9, where they are described and a dwarf Tom Thumb plant shown as a pot-plant. This Tom Thumb is the best for beds or pots. The plants grow about a foot high and are literally covered with bright extremely double golden flowers. It deserves to be better known. 50 seeds 5cts.

Delphinium Tom Thumb. I here offer a very beautiful Chinese Larkspur or Delphinium that forms globular plants a foot high just smothered with charming ultramarine blue flowers, in fancy not unlike little butterflies. It is called Tom Thumb, being the least of the Chinese Larkspurs. For a little bed or border this Larkspur can hardly be equalled. Sown early in spring it will begin to bloom in midsummer and keep up the display for weeks. Sown in autumn the plants will begin to bloom earlier. I am sure this handsome little "Butterfly" will please all who try it; pkt. of 40 seeds 5c.

Delphinium Orchid-flowering. A very beautiful Larkspur is D. Sulpureum. Plants grow 6ft. high, branch in tree form, and are literally covered with the most exquisite orchid-like yellow flowers, surpassing words to describe. This is the only yellow-flowered Larkspur known. It is very attractive and very beautiful and its rarity seems strange. The seeds are somewhat tardy in starting, but if sown in autumn the plants will appear in spring and bloom during the season. This Delphinium is a hardy perennial! Pkt. 5cts.

Digitalis Isabellina, a new Cloxinia flowered Foxglove, charming big drooping golden bells on huge branching spikea. A novelty of rare merit. Packet containing 50 seeds 5cts.

Another Foxglove of still greater merit, a real giant, is the new Shirley Digitalis. A group of this splendid race is glorious. In good soil the plants will raise to the height of nine feet, the central spike covered half its length with the magnificent drooping flowers in all colors, most of them distinctly and charmingly spotted. As the plants grow and bloom they throw out side branches each of which also becomes a wreath of rich flowers. This grand race of Foxgloves was developed by that great and good English horticulturist at his Shirley home, (the same skilful hands that developed the beautiful Shirley Poppy) Rev. W. Wilks. Both of these flowers should be in every flower garden. Each packet containing 100 seeds 5cts.

Didiscus coerulea, the Blue Lace Flower, has become a favorite among florists who grow cut flowers. It is an annual growing 18in. high, bearing an abundance of lovely blue umbels at the tip of long branches. These clusters last for several days when cut and placed in water and have an exquisite effect in bouquets and designs. Sown in a bed about corn-planting time and thinned to 12in. the plants begin to bloom in July. 5cts. See page 9.

Dianthus Nobilis. A race of the most showy and charming of Annual Pinks is *D. Nobilis*, the Royal Pinks. Some regard it as the most beautiful of all. The plants are a foot high with dark glaucous foliage and large fringed very double flowers in splendid colors from white to crimson. A bed of these Pinks is always attractive, and the flowers are fine for cutting; bloom till winter. 60 seeds 5c

Echium. I am pleased to offer and recommend three kinds of *Echium*, plants that belong to the Borage family. They grow two feet high and are showy and beautiful when in bloom. *E. Plantagineum* has lovely blue flowers; *E. Plantagineum album* has white flowers; and *E. Creticum* scarlet flowers. Grown together these *Echiums* make a fine display, the scarlet-flowered being in front. I can also supply seeds of *Echium vilgare*. These rare annuals, all 15in. high, bloom continuously and deserve to be better known. Packet of 50 seeds separate or mixed, 5cts.

Gaillardia Lorenziana. This is a double-flowered hardy annual, blooming throughout summer and autumn, displaying its flowers even after severe frosts. Plants grow a foot high, the exquisite semi-globular flowers 2in. across, borne on good stems and lasting well when cut, are showy garden flowers. I offer Benary's Special Strain, very superior, mixed, 5cts. Also see page 10.

Gazania Longiscapa. This is a rare new hardy annual that should be popular. Just the flower for beds and pots. Easily grown. Flowers over 2in. across, golden yellow with a brown silvery spotted zone surrounded by a blackish brown ring, see page 11.

Geum Mrs. Bradshaw. I specially recommend this grand hardy perennial. Started early the plants will bloom the first season. The plants grow 2ft. high and freely produce the most dazzling Geranium-scarlet flowers nearly 3in. across, very showy in a bed and excellent for cutting, as the flowers last a long time in water. Should be a "must-have". Packet of 25 seeds 5cts.

Godetia. When visiting the big seed gardens in England and Germany I saw nothing more attractive than the fields of *Godetia*. They were glorious sheets of color, which almost dazzled the eyes with their brilliancy. Beds of *Godetia* were also in public parks and private gardens, and the question arises "why are these beautiful annuals so rarely seen in America?" Perhaps it is because their beauty is not known. But why not try them. I offer some of the best (see page 11), and will here mention three that grow a foot high and will look well in a ribbon bed: *Crimson Glow*, rich crimson, *Rosamond*, vivid rose, and *Duchess of Albany*, satiny white. The latter is slightly taller than the others. Sow in early spring where plants are to bloom, or sow in bed and transplant to 8in. apart. 75 seeds 5c

Larkspur, Perennial. This year I offer seeds of *Kelway's Gold Medal Perennial Larkspur* in mixture. These seeds were saved by *Kelway* from the finest named kinds, double and single, no cheap ordinary *Delphiniums* included. Scores of Gold and Silver Medals, First class Certificates and awards of Merit of the Royal Horticultural Society have been accorded for these Glorious Larkspurs. They are simply unapproachable by competitors. Plants grow 7ft. high, branching into numerous spikes gracefully set with big butterfly-like flowers of the richest colors and variegations. If cut freely to prevent seeding the plants will bloom throughout

the season. Plants are hardy and will last for several years. Packet of 50 seeds 5cts. Be sure to add this to your order.

Linaria. I ask your special attention to the *Linarias* offered on page 12. They are all so free-blooming and beautiful that I wonder they are so rare. Just try them. *L. Cymbalaria* is one of the loveliest known plants for a hanging basket or vase, and will thrive in sun or in the most dense shade. Read the offers and add at least two or three *Linarias* to your order. Packets only 5cts.

Lobelia. The beds and edgings of blue and white *Lobelia* in Europe are enthusiastically admired by tourists, being masses of exquisite color, and they ought to be better known in America, as they are easily grown from seeds. The new pendulous sorts are unsurpassed for baskets, bracket pots and vases. See page 11.

Lupinus Hartwegii. This is a splendid hardy annual 2ft. high, branching like a tree and each branch becoming a wreath of lovely, showy sweet-scented flowers. Started early in spring the plants begin to bloom in midsummer and bloom continuously for weeks. They thrive in any soil or situation. The flowers are fine for bouquets. I can supply Dark Blue, Azure Blue, White, Rose, sep. or mixed.

Marigolds. There is a vast difference in *Marigolds*, depending upon the quality of the seeds. African *Marigolds* from inferior seeds are little better than weeds, while from Prize beds they are not unlike *Dahlias* in size and rich color. The same is more or less true of French *Marigolds*, which are favorites in most gardens. The little *Tagetessignata pumila* grows 9in. high and is a glorious mass of bloom in autumn, desirable either in beds or borders. *T. lucida* is also handsome, and deliciously scented. My seeds of all these *Marigolds* are of the finest quality, grown by specialists. You will find them first-class. Packet 5cts. See page 13.

Nemesias. These are very popular bedding and pot plants in England and are of easy culture. They grow 9in. high, from tuft-like plants smothered with the loveliest flowers of blue, white, pink and scarlet. Sow in a box or bed and transplant 6in. apart. Blue Gem and White Gem are large-flowered hybrids, very fine for beds or edgings. *Nana Compacta* and *Triumph* are dwarf improved *Strumosa* varieties of special value for summer beds or window pots in winter; come in mixed colors. *Lilacina* is small flowered but very profuse-blooming, as also *versicolor* which comes in blue, lilac and white. These are among the good things but little known. See page 13.

Pansy, New Apricot, a rare and delicate color not found in any other variety, just introduced by *Haage and Schmidt* of Germany. It is new and very attractive and recommended for bedding. As yet the seeds are very expensive, but I will sell packets of 25 seeds for 5cts.

Just here I will ask attention to my New *Spencer Frilled* and *Ruffled Giant Pansies* offered on page 14, as well as to the fine strains recommended. I am enabled to sell these at 5cts. per packet only by the great demand I have for them.

Poppy, New Sunbeam. See my offer of these *Poppies* on page 14. They are perennial, but bloom the first season if sown early. They belong to the *Nudicaul* race. The big showy flowers are freely borne on strong stems that issue from the ground and a bed of them is a beautiful sight; pkt. 5cts.

Petunias, etc. On page 15 I offer the finest Petunias known, as also of Phlox Drummondii. On page 16 you will find the very best quality of Double Portulaca offered, the seeds specially grown by Benary of Germany. The flowers are as double as roses and of all colors. On same page you will find description of the New Giant Gloxinia-flowered Salpiglossis, the flowers of which are amazingly rich and beautiful.

Salvias. I offer a splendid collection of Salvias on page 17—annual, biennial and perennial. *Salvia coccinea* with fiery scarlet flowers is a fine plant for a large pot; *S. Ringens*, with large purple flowers and *S. Roemeriana* with orange-red flowers, also *S. Patens* with the loveliest of blue flowers are fine for either pots or beds. The showiest in beds, however, is *Salvia splendens*, one of the grandest of bedding annuals. See note appended to *Salvia* on page 17.

Vinca rosea. I call your special attention, too, to *Vinca rosea* as a bedding plant. It grows a foot high, and will endure heat and drouth better than any other flower I know of. Set 8 in. apart the plants become a sheet of exquisite bloom and will remain so until cut down by severe frosts, also a good pot plant for winter blooming; easily grown and easily transplanted. Modestly described on page 17. In a mild climate it will reproduce voluntarily.

Scabiosa. A hardy annual of great beauty and usefulness is the New Dwarf Improved Double Large-flowered *Scabiosa*. The plants are taller and the flowers much larger than those of the common dwarf *Scabiosa*; admirably adapted for beds and borders, while the long-stemmed flowers are fine for cutting. I offer the leading colors, see page 17.

Ten Weeks Stock. The Improved Double-flowered Ten Weeks Stock may be considered the most desirable of all annuals. Plants are easily started from seeds, grow readily, bloom continuously, while the flowers are large, delicate in texture, come in many exquisite colors, and are deliciously scented. My seeds of these were all saved from pot plants specially treated, and can be depended upon for the finest flowers. I offer the leading kinds in many separate colors or mixed, see p. 17.

Virginia Stock. The Virginia Stock is also an annual, but very different, belonging to a different genus. The flowers are small, single, but of lovely colors and very free-blooming. Besides the varieties offered I can supply *Fairy Queen*, a new sort that bears beautiful carmine flowers.

Space will not permit me to speak of Everlastings, Vines, Biennials and Perennials and the choice plants for the Window Garden, but these are more or less recommended in pages 19 to 31, and I hope you will carefully study those pages. Only the best things are offered, and you will find a lot of information crowded in among the descriptions. Please Note: My seeds are all 5cts. a packet, 22 packets \$1.00, 50 packets \$2.00. Ask your friends to send with you and make up a club order. I will gladly mail copies of Park's Flower Book to any prospective patrons or to anyone who would appreciate it, whether they wish to buy or not. Let me hear from one and all. GEO. W. PARK, Greenwood, S. C.

Perennials for Beds and Borders. *Alyssum Saxatile* compactum, *Arabis Alpina*, *Aubrietia*, *Campanula medium*, *Carnation*, *Delphinium*, *Digitalis*, *Hollyhock*, *Hesperis*, *Leucanthemum*, *Iberis sempervirens*, *Papaver Orientalis*, *Pinks*, *Saponaria*, *Ocymoides*, *Pyrethrum roseum*, *Rudbeckia Newmanii*, *Silene Orientalis*, *Sweet William* and *Wallflower*.

Pot Plants. The best plants for pots are *Abutilon*, *Begonia*, *Calceolaria*, *Cineraria*, *Carnation*, *Coleus*, *Gloxinia*, *Compact Petunies*, *Primula Obconica*, *Malacoides* and *Sinensis*. To these may be added *Double Balsam*, *Browallia*, *Alonsoa*, *Asclepias curassavica*, *Lobelia*, *Zanzibar Balsam* and *Nemesia*

Verbena. On page 18 you will find offered a superb collection of Mammoth Verbena, all the finest varieties as well as some of the rare and beautiful species. I would also ask you to consider the New Queen Giant Verbenas on page 36. Verbenas are indispensable garden flowers, and it pays to get the improved kinds. My seeds of these are the best quality and will afford untold pleasure.

Wallflowers are beautiful, very fragrant, easily grown. Do not omit them. See pages 18, 27, 31 and 39.

Zinnias have been favorite annuals with me since childhood, when only the single-flowered were known. To-day we have not only the miniature or Lilliput double Zinnias, but mammoth-flowered kinds that are not unlike Dahlias in size and beauty. My seeds of Dahlia-flowered Zinnias are direct from the originators of these beautiful supergiant Zinnias and cannot be equalled. Try *Zinnia gracillima*; grows 1 ft. high, branches and shows a mass of baby flowers, double to the centre and dazzling scarlet in color. It makes a grand bed or border. *Zinnia Haageana Perfection* has similar double flowers, but the petals are narrow, as also the foliage, while the colors and markings are rare and attractive. They deserve a place in every flower garden. See page 18.

Three Splendid Novelties.

Marigold, Climbing. This most attractive of all Marigolds will grow 15 ft. high, the stems covered with little golden protuberances. It branches freely, and needs strong support. In autumn it is literally covered with large, full-double flowers, and becomes the most attractive thing in the garden, calling forth enthusiastic praise from all who see it. Pkt. 5c.

Thermopsis Caroliniana. This is another garden novelty of special merit. It grows 3 ft. high, becoming a tree-like plant bearing long racemes of pea-like golden flowers. The plants are of easy culture and of such rare beauty that it seems strange it was not introduced and popularized before this. It makes an exceedingly showy bed. Try it; pkt. 5cts.

Crotalaria Juncea. This beautiful annual grows 8 ft. high, branching at the top and developing long racemes of large pea-like flowers, golden yellow with brown shading on the standard. On our grounds it is one of the most attractive and enquired-about autumn flowers we have. For years it was grown in English hot-houses as a rare tropical plant, and it is only recently that its merits as a garden plant became known. It will delight all who try it; pkt. 5cts.

Continuous-blooming Annuals. *Ageratum Sweet Alyssum*, *Asclepias curassavica*, *Asperula azurea*, *Double Balsam*, *Browallia*, *Celosia*, *Gaillardia*, *Lobelia*, *Impatiens*, *Marigolds*, *Mirabilis*, *Nasturtium*, *Pansy*, *Phlox*, *Petunia*, *Portulaca*, *Scabiosa*, *Ten Weeks Stock*, *Verbena*, *Vinca*, *Wallflower*, *Zinnia*, *Helichrysum*, *Luffa*, *Ipomoea*, *Maurandya*, *Thunbergia*, etc.

For the Rockery. *Abronia*, *Alyssum saxatile*, *Arabis*, *Aubrietia*, *Campanula*, *Carpaia*, *Iberis sempervirens*, *Cerastium biebersteinii*, *Crucianella stylosa*, *Erysimum pulchellum*, *Gypsophila muralis*, *Oxalis*, *Primula Cashmeriana* and *Rosea grandiflora*, *Sanvitalia*, *Saxifrage*, *Sedum*, *Tunica*, *Viola cornuta*, *Jonosidium*, *Leptosiphon* and *Potentilla*.

Mammoth Queen Verbenas

VERBENAS have been given special attention by growers recently, and the old-fashioned kinds have been greatly out-stripped by the newer ones now being introduced. The clusters are not only larger, the flowers of monstrous size, the colors richer and more varied, but the habit and free-blooming qualities of the plants have been improved, so that a bed of Verbenas of the newer sorts is a source of wonder and admiration. Perhaps the finest of these are the new Queen varieties, which embrace the leading colors and variegations. They are worthy of special favor.

Snow Queen, a grand variety, the giant snow white flowers freely produced in big clusters. 5c.

Rose Queen, lovely soft rose flowers of great size borne in magnificent heads, 5c.

Scarlet Queen, huge vivid scarlet flowers with large white eye; fine for beds, 5c.

Salmon Queen, large trusses of bright salmon-rose flowers with white eye, 5c.

Auriclea Queen, immense flowers and clusters of various colors with large distinct eyes, 5cts.

Superb mixture of all the above sorts 5cts.

The seeds of Verbenas usually germinate in less than two weeks, and the plants begin to bloom when quite young. Set 18 in. apart they soon cover the bed, and make a fine display until winter. They like a sunny situation and good soil.

Some Fine Pot Plants. The choice large-flowered hybrids of Calceolaria and Cineraria are splendid winter-

blooming window plants, and easily grown from seeds. See page 28. Our seeds are of Kelways Perfect Model, and none are better. We have also Benary's Fine German Strain of Calceolarias, and Vilmorin's French Strain. We handle only the best. There is nothing cheap about any of our seeds but the price. We would also call special attention to our Giant Cyclamen, page 29, grown by the famous French firm of Vilmorin, and also Giant Fringed Primrose grown by the same firm, pages 29 and 31. All our seeds are fresh and can be depended upon for vitality as well as quality. Only 5 cents a packet.

Sweet Williams. These are old-fashioned flowers greatly improved, and among the most beautiful of perennials. The flowers are large, well-formed, superbly colored, and are produced in big clusters not unlike the one shown in the little engraving. They are among the most satisfactory of hardy plants for beds and borders, and anyone can grow them. See page 27. We prefer the exquisite single-flowered kinds, but can also supply the double ones. When ordering don't forget the Sweet Williams, of which we have extra-quality seeds.

Sweet Peas. Our Spencers are unexcelled. See page 21. The varieties offered were lately selected by a committee of the National Sweet Pea Society of England as the finest Spencer Sweet Peas of their color. You cannot err in getting them.

Calceolaria Cineraria

Sweet William

Bedding Plants. For beds and borders it is desirable to have plants that grow about the same height and bloom freely and continuously for weeks. If you want a spring display you must use hardy annuals that can be sown in autumn, say during August or September, before winter. Among the best for this purpose are the following: Cheiranthus Allioni, Calliopis Crimmon King, Beaufort and Grandiflora, Candytuft umbellata white and Coronaria Hyacinth flowered, Double Clarkia, Eschscholtzia (in a mild climate), Erysimum compactum, Dwarf Larkspur, Myosotis victorica, Nemophila, Papaver Umbrosum and Shirley, Saponaria multiflora, Double Silene pendula, etc. Most of these grow from nine inches to a foot or more

high, and are generally satisfactory in masses. Avoid crowding, as this often causes the plants to damp off in wet weather, and when close they do not have room to develop. For Summer and Autumn Beds you can start seeds in a bed or box and transplant. Use Bedding Antirrhinum, Alyssum, Asters, Balsams, Annual Chrysanthemum, Celosia, Cosmea, Butterfly Delphinium, Chinese Dianthus, Godetia, Gaillardia, Lobelia, Lavatera, Marigolds, Nemesis, Nicotiana, Dwarf Nasturtiums, Pansies, Petunias, Phlox, Pentstemon, Portulaca, Salbiglossis, Salvia, Vinca, Ten Weeks Stock, Scabiosa, Verbena and Zinnia.

Drooping Flowers. For Hanging Baskets and Window Boxes use Sweet Alyssum, Lobelia, Linaria Cymballaria, Balcony Petunias, Schizanthus, Cardiospermum, Maurandya, Thunbergia alata, Smilax, and Asparagus Sprengeri.

★ Please Notice, that where a star appears it indicates something that we consider of special merit worth trying.

The Roggli Race of Improved Swiss Pansies has produced a sensation among Pansy enthusiasts because of their enormous size, full and pleasing edgings in rare combinations of bronze and scarlet and salmon and gold have not heretofore been approached in any other strain, and when the superior beauty of these Pansies is known they will become immensely popular. The plants start readily from seeds, are dense and leafy, and the big flowers are amply borne well above and are the more showy and beautiful because of the rich green back-ground. You'll miss a good thing if you fail to add this Pansy to your order.

The New Swiss Race of Giant Pansies has produced a sensation among Pansy enthusiasts because of their enormous size, full and pleasing form, exquisite, rare tints, striking variegations, and free, continuous blooming. I offer this Grand novelty with entire confidence, and more than please a lot of my friends who try it. The seeds are priced justly in order to encourage orders. Do not miss this big bargain in the glorious Pansy Novelty. A bed of blooming plants of this Grand Pansy will be a revelation to yourself as well as to your friends who see it, and will be the talk of the entire neighborhood. It is simply unapproachable.

ROGGLI'S IMPROVED SWISS GIANT PANSIES

I HAVE the great pleasure of offering to my thousands of friends choice seeds of Roggli's Improved Swiss Giant Pansies, the latest and by far the best strain of Pansies thus far known. The plants are of vigorous compact growth, clothed with rich green foliage, above which the enormous shapely flowers borne on long stems appear. The flowers are particularly striking because of their circular form, and the broad undulating petals, which overlap and give the flowers a duplex or double appearance. The colors and variegations are unusually varied, and a bed of blooming plants is wonderfully showy and surpassingly beautiful. The seeds I offer were grown by a European specialist who saved them only from carefully selected plants, and can be depended upon for the highest quality and vitality. If you want something especially good in Pansies get seeds of this glorious new strain. The results will surprise you. Packet of 30 seeds only 5cts.

Kelway's Gargantuan, a magnificent Aster similar to "New Development" but larger, is 2 1-2 ft. high, each flower borne on a long leafy stem. I have the following fine named varieties: Ajax purple, Atlas deep rose, Gog light blue, Goliath peach blossom, Magog dark purple, Polar Giant White, separate or in complete mixture, 50 seeds 5cts.

Kelway's Globe Quilled Perfect Model, the finest strain of Quilled Aster. Nothing in existence approaches it. The flowers are all perfectly semi-globular and up to exhibition standard. Certified by the Royal Hort. Society and awarded Prize Gold Medal at Paris Exposition. 75 seeds 5cts. You should surely add this superb Aster to your list.

LILIES. Mr. Park: Years ago I took your dear little Floral Magazine and always enjoyed your interesting letters as well as those of contributors. I began to test and preserve the copies, and when I have plant trouble I usually find a remedy in my Floral Magazine. Although 81 years old I am still growing flowers. I have Regal Lilies now in bloom, the plants of which I raised from seeds sown last year. I have hundreds of seedlings of this Lily now. I make a specialty of Iris and Fritaries which I sell and use all the money for religious and charitable purposes. I shall be glad to hand copies of your Flower Book to my flower-loving friends if you will send me a few copies of the same. My friends are from Iowa, March 1. I am in a hanging basket, and the branches are now 3 ft. long and still nice—just covered with lovely, fragrant double flowers of all shades from white to crimson. Mrs. Viola M. Simpson, Bates Co., Mo., Aug. 20.

FLOWERS OF PARK'S PRIZE CAMELLIA-FLOWERED BALSAM

Double Balsams—Best of Annuals for Beds and Pots

The Improved Camellia-flowered Balsam is one of the most beautiful, showy and satisfactory of annuals either for beds or pots. The plants are readily started, begin blooming early and continue for months. They thrive in sun or shade, and if young plants are started in September and potted they will bloom freely in the window during the winter. The flowers are large, exquisite in form, of a pleasing wax-like texture and show many shades of color from white to rich crimson, as well as striped and spotted. If you grow but a half dozen annuals one should be the Double Balsam. It is indispensable. Packet containing 30 seeds 5cts.

The New Flowering Bush Balsam

This is a Double Balsam being introduced from Italy. It is recommended by the introducers as dwarf-habit, free-flowering, of loose growth and blooming abundantly the entire summer. The plants are easily propagated from seeds, not difficult to care for, and as the flowers are not hidden by the foliage they are well suited for beds. Also desirable for pots in the window. The seeds I offer are from France. Colors: White, Lilac-rose, Red, sep. or mixed. Try this Balsam novelty and report to me on its merits

PRIMROSES. Mr. Park: I truly enjoyed the flowers I raised from your seeds. I have a dozen Primroses now coming into bloom after giving as many away. W. A. London, Columbiana, Ohio, Dec. 3.
ZINNIA'S. Mr. Park: I want to tell you that the Zinnias grown from your seeds won First Prize at our Pitt County Fair. They were Wonderful Zinnias. Mrs. Oscar Tucker, 1st Co. N. C., Nov. 21.
PETUNIAS. Mr. Park: I want to tell you about my beautiful Petunias raised from your seeds. The Kelway Giant Petunias were wonderful and I put some in pots in autumn and they are now blooming in the house. Miss Lada E. Scott, Boone County, Iowa, Oct. 22.
DOUBLE PETUNIAS. Mr. Park: My Double Petunias were grand, but began to die. Mrs. Simpson, Bates Co., Mo.

Choice Things not in General List

Antirrhinum New English Compact, fine bedding varieties developed by an English specialist, splendid, see page 40, 5cts.

Kelway's Up-to-date, uniform medium height, large flowers and magnificent colors; extra, mixed 5c.

Double Dwarf Branching, 1ft. splendid for beds, white, yellow, brown and violet mixed, 5cts.

Torenia Fournieri, a charming pot plant.

TORENIA, a lovely Pot Plant

A LOVELY and showy flowering plant for pots and beds is Torenia Fournieri. At a little distance it has the appearance of a fine Pansy, the flowers showing a variegation of light and dark rich blue, with golden throat. Plants are easily grown from seeds, and are bushy and free-blooming. T. Bailloni is also handsome, the flowers bright golden yellow, with deep red throat. Both of these plants like light rich soil. Fine for the window or market. We offer Fournieri, Blue and Fournieri White; and Bailloni, yellow; separate or mixed, 5 cts.

Thunbergia coccinea, vine; scarlet flowers; fine for pots.

Azurea Grandiflora, robust vine; charming large flowers; azure blue.

Fragrans, White, fragrant flowers; free-blooming.

Gibsoni, large orange flowers; free-blooming, beautiful.

Seeds of above Thunbergias are very scarce; we can put only 3 in a pkt.

THUNBERGIA alata, (See page 22), an easily-grown, free-growing, free-blooming vine for either garden or house; fine winter-bloomer in pots.

THE GLORIOUS NEW CLIMBING MARIGOLD

A NOVELTY!
OF REAL MERIT

Three years ago I offered this splendid novelty, which created a great sensation. Last year the crop was almost a total failure; but this year I hope to be able to supply all who order the seeds. The plants grow 15ft. high under favorable conditions, branching and bearing hundreds of large double flowers of various rich colors, exceedingly showy and beautiful. It is of easy culture and will be the surprise and wonder of all your neighbors and friends who see it. It is a novelty of real merit and sure to please.

Packet of 15 seeds only 5 cts.

DEAR MR. PARK: Out of 15 seeds of your Climbing Marigold I had 10 plants which grew about 15ft. high, and some ran on the ground for 8 or 10ft. They were a mass of big double blooms. They were a novelty here and everyone admired them. I surely got my money's worth. Mrs. C. F. Green, Saluda Co., S. C., March 19, 1929.

Choice Seeds Omitted from the General List

Blooming the First Season

Aster, New Mammoth White, 3ft. huge blooms.
Cardinal, 2ft. brilliant scarlet, branching.
Kelway's Victoria, 2ft. large, double, fine; mixed.
Erythroxylon Coca, the wonder plant of the Andes.
Gilia, 1ft. Achillefolia mixed; Laciniata lavender.
Linifolia white, Nivalis white, Tricolor white, violet and rose mixed, Dwarf or Tall mixed, All mixed.
Iris Pseudo-acorus, 2ft. Water Flag, golden flowers.
Scutellaria baicalensis, 18in, blue, for beds or cutting.

Perennials

Adonis Vernalis, 1ft. golden yellow flowers in tufts.
Anemone Japonica, 2ft. white, rose, mixed; lovely fls.
Doronicum Caucasicum, 2ft. showy golden flowers.
Gardenia, 8ft. Cape Jasmine, white, sweet scented.
Ipomopsis elegans, 3ft. Erect Cypress, scarlet, etc.

Sempervivum, House Leek, pretty; seeds fine.
Solidago, 3ft. Golden Rod, splendid varieties; mixed.

Shrubs and Trees

Clethra Alnifolia, 2ft. pretty, very fragrant flowers.

Robinia Viscosa, rose colored racemes, beautiful.
Symphoricarpos Vulgaris, 3ft. Coral Berry, fine.
Tilia argentea pendula, 40ft. the beautiful lime tree.
Vitis Coignetiae, Crimson Glory Vine, handsome.
Xanthoxerus sorbifolia, 12ft. Hyacinth Tree, handsome white flowers.

Nemesias for Beds. It is pleasing to record the increasing popularity of Nemesias as bedding plants. During

August two of the large-flowered varieties edged with the dwarf compact [hybrid] varieties were the outstanding feature of the Promenade Garden. Raised in a cold-frame and planted out early in June, 6 to 9 inches apart. The Nemesias are not only useful sea-side annuals, but every day grow and flower well during moist and dull weather.

NOTE. The little engraving shows a plant of Nemesia in bloom. It is truly an annual that deserves to be better known. I supply a choice mixture of the extra large-flowered Nemesia Suttoni, 5 cts., also of the Dwarf Compact in splendid mixture. These will make a beautiful bed at a cost of only 10 cts. Don't fail to order them. GEO. W. PARK.

JUST A WORD. My Friends, I await your valued orders and will give them my best attention. My seeds are new, sure to grow and are of the best quality. Get your neighbors to club with you and also give names of a few seed-buyers who would like my Flower Books. I shall appreciate these favors and hope to hear from you all. Address

GEO. W. PARK, Greenwood, S. C.

Allwoodii's Rare Novelties

Allwoodii Bros. of England are Carnation specialists, and have developed some wonderful novelties which I offer my friends, the seeds coming direct from these noted florists. Here they are: **CARNATION Hardy Border**, immense double fragrant flowers produced from Spring till Winter; a new, truly perpetual garden plant. Mixed colors 5 cts.

ALLWOODII, the popular half Pink, half Carnation, an entirely new race of hardy flowers. Nothing like it has ever been thought of before. A grand novelty, mixed colors, 5 cts.

SWEET WIVELSFIELD, an entirely new race of hardy annuals, half Pink, half Sweet William; blooming from June till November, the seed-pods being removed. Rich flowers, many colors, 5 cts.

ALLWOODII ALPINUS, a new perpetual blooming rock plant, the result of crossing various Dianthus species for 12 yrs. New. 5 cts. The packets of these rare novelties are small, but every seed will produce a good plant if properly cared for.

Appreciative. Dear Mr. Park: Yours is a wonderful work, shedding sunshine and comfort to so many hearts. Many persons could not afford the choice flowers at fancy prices. Your work is not done for profit, but for humanity. May God bless and spare you to us for many years. Mrs. C. A. Bush, Todd Co., Minn., May 8, 1929. My work was begun in early youth at the old farm homestead. There I raised my own seeds, printed my catalogue, and did my advertising. Providence has kindly spared my life to serve my flower-loving friends with seeds, bulbs and plants ever since. I confess that I care but little for worldly wealth, and I would far rather have my patrons satisfied and pleased than to have their money. My health is good, and I still spend more than ten hours every week day in my office, and upon my grounds, looking personally after my business and seeing to the wants of my esteemed patrons. It is a delightful work, and I hope to have the appreciation and patronage of my friends for many years to come. GEO. W. PARK, Greenwood, S. C., Jan. 1, 1930.
